**Dynamics of the Singapore Success Story : Insights** Tong Dow Ngiam, 2011     *A Mandarin and the Making of Public Policy* Tong Dow Ngiam, 2006 Singapore's success story has increasingly been recognised but few have told it from the perspective of an insider. As a senior civil servant and Mandarin from 1959 to 1999, Ngiam Tong Dow served with the founding generation of political leaders and contributed to the country's economic growth. In this book, he reflects on these experiences, sharing personal anecdotes and perceptive insights of the early decades. He also boldly questions some of the policies of government and emerging trends in the country to suggest how Singapore must change to survive and thrive in the future.

**BOOK JACKET**     *From Third World to First* Lee Kuan Yew, 2000-10-03 Few gave tiny Singapore much chance of survival when it was granted independence in 1965. How is it then that today the former British colonial trading post is a thriving Asian metropolis with not only the world's number one airline, best airport and busiest port of trade but also the world's fourth highest per capita real income? The story of that transformation is told here by Singapore's charismatic, controversial founding father, Lee Kuan Yew. Rising from a legacy of divisive colonialism, the devastation of the Second World War and general poverty and disorder following the withdrawal of foreign forces, Singapore now is hailed as a city of the future. This miraculous history is dramatically recounted by the man who not only lived through it all but who fearlessly forged ahead and brought about most of these changes. Delving deep into his own meticulous notes as well as previously unpublished government papers and official records, Lee details the extraordinary efforts it took for an island city state in Southeast Asia to survive at that time. Lee explains how he and his cabinet colleagues finished off the communist threat to the fledgling state's security and began the arduous process of nation building, forging basic infrastructural roads through a land that still consisted primarily of swamps, creating an army from a hitherto racially and ideologically divided population, stamping out the last vestiges of colonial era corruption, providing mass public housing and establishing a national airline and

airport In this illuminating account Lee writes frankly about his trenchant approach to political opponents and his often unorthodox views on human rights democracy and inherited intelligence aiming always to be correct not politically correct Nothing in Singapore escaped his watchful eye whether choosing shrubs for the greening of the country restoring the romance of the historic Raffles Hotel or openly unabashedly persuading young men to marry women as well educated as themselves Today's safe tidy Singapore bears Lee's unmistakable stamp for which he is unapologetic If this is a nanny state I am proud to have fostered one Though Lee's domestic canvas in Singapore was small his vigor and talent assured him a larger place in world affairs With inimitable style he brings history to life with cogent analyses of some of the greatest strategic issues of recent times and reveals how over the years he navigated the shifting tides of relations among America China and Taiwan acting as confidant sounding board and messenger for them He also includes candid sometimes acerbic pen portraits of his political peers including the indomitable Margaret Thatcher and Ronald Reagan the poetry spouting Jiang Zemin and ideologues George Bush and Deng Xiaoping Lee also lifts the veil on his family life and writes tenderly of his wife and stalwart partner Kwa Geok Choo and of their pride in their three children particularly the eldest son Hsien Loong who is now Singapore's deputy prime minister For more than three decades Lee Kuan Yew has been praised and vilified in equal measure and he has established himself as a force impossible to ignore in Asian and international politics From Third World to First offers readers a compelling glimpse into this visionary's heart soul and mind *Management of Success* Kernial Singh Sandhu, Paul Wheatley, 1989

**The Ruling Elite of Singapore** Michael D. Barr, 2014-01-17 Michael Barr explores the complex and covert networks of power at work in one of the world's most prosperous countries the city state of Singapore He argues that the contemporary networks of power are a deliberate project initiated and managed by Lee Kuan Yew former prime minister and Singapore's founding father designed to empower himself and his family Barr identifies the crucial institutions of power including the country's sovereign wealth funds and the government linked companies together with five critical features that form the key to understanding the nature of the networks He provides an assessment of possible shifts of power within the elite in the wake of Lee Kuan Yew's son Lee Hsien Loong assuming power and considers the possibility of a more fundamental democratic shift in Singapore's political system

**Speaking Truth To Power: Singapore's Pioneer Public Servants** Hoe Yeong Loke, 2019-12-23 It is said that the duty of public servants is to speak truth to power to give honest sound and sometimes unpopular advice to political leaders Underneath the narrative of the Singapore story as personified by Lee Kuan Yew and the first generation leaders lie the lesser known tales of dedicated public servants in the nation building process Singapore's development cannot be fully understood without considering the role of those in public service during the transition to independence from the 1950s to 60s Featuring oral history interviews from the National Archives of Singapore with 11 pioneer public servants *Speaking Truth to Power: Singapore's Pioneer Public Servants* reveals first hand personal accounts of the civil service's transition from the colonial era their relationship with the

political leaders and how Singapore's economic development was driven by sound public administration in those critical years. The annotated interviews make for an easily readable format for researchers and general audiences alike. Some of Singapore's pioneer public servants featured in the book include Wee Chong Jin, The First Local Chief Justice; Goh Koh Pui, Chairman of the PSA; Abdul Wahab Ghows, Solicitor General and High Court Judge; Hedwig Anuar, Director of the National Library; Kwa Soon Bee, Pioneer of Singapore's Healthcare System; Alan Choe, HDB's First Architect Planner and Founder of the URA; Chan Chin Bock, Chairman of the EDB; J. Y. Pillay, The Man Behind Singapore Airlines; Ngiam Tong Dow, The Maverick Permanent Secretary; Tommy Koh, Singapore's Representative at the United Nations; Winston Choo, The First Chief of Defence Force.

**Dynamic Governance: Embedding Culture, Capabilities And Change In Singapore (English Version)** Boon Siong Neo, Geraldine Chen, 2007-07-03. In a world of uncertainty and change, current achievements are no guarantee for future survival. Even if the initial chosen set of principles, policies and practices are good, static efficiency and governance would eventually lead to stagnation and decay. No amount of careful planning can assure a government of continual relevance and effectiveness if there is no capacity for learning, innovation and change in the face of ever new challenges in a volatile and unpredictable global environment. This book provides an in-depth look at dynamic governance, the key to success in a world of rapid increasing globalization and unrelenting technological advancements. If bureaucratic public institutions can evolve and embed the culture and capabilities that enable continuous learning and change, their contributions to a country's socio-economic progress and prosperity would be enormous. The lessons from their efforts in institutionalizing culture, capabilities and change could provide meaningful and valuable insights for transforming organizations in other contexts. **Singapore's Success** Henri C. Ghesquière, 2007. This monograph seeks the key to good economic policy by explaining Singapore's remarkably rapid development, the world's fastest growing economy between 1960 and 2000, and asks whether the city state's success can be translated to other countries. Engineering prosperity is at the heart of Singapore. The book demonstrates how exceptional cohesion amongst economic outcomes, policies, institutions, values and leadership over a long period account for the impressive results obtained. The author is careful not to present Singapore as a model to be copied uncritically in its specifics but as a case history that illustrates general principles which other countries might wish to apply to their particular circumstances. Well researched yet highly readable, Singapore's Success: Engineering Economic Growth will appeal to Singaporeans and a wide international audience including policy makers and advisors, students of development economics and anyone interested in the quest for sustained economic growth. 新加坡的成功之道, 2013. Based on his rich fifty-year experience as a senior Singapore civil servant, Ngiam Tong Dow manages to present a clear picture in this book of Singapore's path toward success. It is a collection of his speeches, interviews and articles delivered and written between 2004 and 2010. According to Ngiam, what lies behind Singapore's spectacular achievements from 1959 onward is the island nation's relentless pursuit of knowledge as the critical lever for development. Singapore is the forerunner of knowledge-based

economies emerging in this new millennium
