Dynamo Magician Nothing Is Impossible:

Revelations Brian Rappert, 2024-12-16 From tabloid headlines to scientific discoveries to investigative documentaries the claim that truth is being revealed is commonplace today Such attention grabbing claims can conjure allure sell products launch careers cement authority and much more besides And yet despite the familiarity of revelation talk this notion has been subject to limited academic theorizing to date outside of matters divine Revelations sets out to examine how the making available through revealing is accomplished as well as the implications of revealing In other words it is concerned with how revelations are realized and what is realized through them Central to the argument will be treating attempts to make available as processes that can entail mix that is as processes that combine treating truth as publicly demonstrable but also as beyond simple verification as alternately intelligible but also as unknowable In taking the pervasive appeal to revealing as its topic and through drawing inspiration from a range of disciplines this book should appeal to a variety of audiences including those interested in secrecy conspiracy expertise celebrity science and technology

Performing Deception Brian Rappert, 2022-05-27 In Performing Deception Brian Rappert reconstructs the practice of entertainment magic by analysing it through the lens of perception deception and learning as he goes about studying conjuring himself Through this novel meditation on reasoning and skill Rappert elevates magic from the undertaking of mere trickery to an art that offers the basis for rethinking our possibilities for acting in the modern world Performing Deception covers a wide range of theories in sociology philosophy psychology and elsewhere in order to offer a striking assessment of the way secrecy and deception are woven into social interactions as well as the illusionary and paradoxical status of expertise
