Popular Hindi Cinema Ronie Parciack, 2016-04-20 The popular Hindi film industry is the largest in India and the most conspicuous film industry in the non Western world This book analyses the pivotal visual and narrative conventions employed in popular Hindi films through the combined prism of film studies and classical Indian philosophy and ritualism The book shows the films outside Western paradigms as visual manifestations and outcomes of the evolution of classical Hindu notions and esthetic forms These include notions associated with the Advaita Vedānta philosophical school and early Buddhist thought concepts and dynamism stemming from Hindu ritualism rasa esthetic theories as well as Brahmanic notions such as dharma religion law order and moksha liberation These are all highly abstract notions which the author defines as the unseen a cluster of diversified concepts denoting what subsists beyond the phenomenal what prevails beyond the empirical world of samsara and stands out of this world alaukika while simultaneously being embodied and transformed within visual filmic imagery codes and semiotics that are teased out and analyzed A culturally sensitive reading of popular Hindi films the interpretations put forward are also applicable to the Western context They enable a fuller understanding of religious phenomena outside the primary religious field within the vernacular arenas of popular culture and mass communication The book is of interest to scholars in the fields of Indology modern Indian studies film media and cultural studies

The Hindus Wendy Doniger, 2009-03-19 From one of the world's foremost scholars on Hinduism a vivid reinterpretation of its history An engrossing and definitive narrative account of history and myth that offers a new way of understanding one of the world's oldest major religions The Hindus elucidates

the relationship between recorded history and imaginary worlds Hinduism does not lend itself easily to a strictly chronological account many of its central texts cannot be reliably dated even within a century its central tenets karma dharma to name just two arise at particular moments in Indian history and differ in each era between genders and caste to caste and what is shared among Hindus is overwhelmingly outnumbered by the things that are unique to one group or another Yet the greatness of Hinduism its vitality its earthiness its vividness lies precisely in many of those idiosyncratic qualities that continue to inspire debate today Wendy Doniger is one of the foremost scholars of Hinduism in the world With her inimitable insight and expertise Doniger illuminates those moments within the tradition that resist forces that would standardize or establish a canon Without reversing or misrepresenting the historical hierarchies she reveals how Sanskrit and vernacular sources are rich in knowledge of and compassion toward women and lower castes how they debate tensions surrounding religion violence and tolerance and how animals are the key to important shifts in attitudes toward different social classes The Hindus brings a fascinating multiplicity of actors and stories to the stage to show how brilliant and creative thinkers many of them far removed from Brahmin authors of Sanskrit texts have kept Hinduism alive in ways that other scholars have not fully explored In this unique and authoritative account debates about Hindu traditions become platforms from which to consider the ironies and overlooked epiphanies of history

the practice of pilgrimage in India between AD 300 and 1200 and draws extensively on epigraphic and literary data particularly the Puranic corpus to delineate the growing popularity of the ritual spatially and chronologically Viewing religion as part of the social process it seeks to explore linkages between new religious trends and changes taking place in the material conditions of life Although there are a few references to pilgrimage centres in inscriptions of the early second century the number of these destinations rapidly multiplied from the fourth fifth centuries coinciding meaningfully with widespread decay and desertion of urban places In an age of political disintegration and social insularity religious congregations served as the nucleus of cultural bonding Alongside of decaying towns cult sites relating to forests hill tracts deserts river banks sea coasts crossroads all surfaced as pilgrimage centres of some sort with an attendant increase in the number of myths and legends sanctifying these places with the emergence of temple as the focal point of social processes even large villages and marginal political centres also emerged as places of pilgrimage A thrust area of the ritual was the changing nature of the gift exchange system Gifts largely agricultural goods and inputs during the Gupta and post Gupta times were necessary if one wished to acquire religious merit and drive away the impurities of deeds and thoughts entailing loss of social status Charities performed at the sacred places were considered all the more beneficial The idea that religious merit ensured a comfortable afterlife and that dying in places sanctified by gods and god men brought instant religious merit encouraged the practice of committing self immolation at the holiest of pilgrimage centres *Journal of South Asian Literature* ,1986
