Proven Youtube Shorts Ideas For Beginners Usa:

The Ideas That Rule Us Chris Grcott,2024-10-07 It may seem surprising that the economic choices we make in society are often determined by ideas rather than scientific evidence or financial resources The consequences of such choices are often stark such as the austerity policies which eroded our ability to withstand crises like the Covid 19 pandemic This book explores the ideas that rule how our economy works how government operates and how workers organise A small number of historical economic ideas remain stubbornly prevalent and powerful today However they are largely based on questionable assumptions about human behaviour and unproven theoretical ideas about economics They were founded within the realms of philosophy and politics rather than hard science This book illustrates how politicians have selectively borrowed convenient economic concepts in order to promote and defend policies which entrench and escalate inequalities and other structural problems This accessible book invites readers to question the ideas that rule us and explore the challenges facing society It invites progressive thought about how we need to urgently organise action for the future

The New Islamic State Jack Covarrubias,Tom Lansford,2016-09-17 The rise of the Islamic State has dramatically forced a recalculation of political order and security in the Persian Gulf and broader Greater Middle East by the United States and its allies and adversaries including most notably Iran Israel and Saudi Arabia Since the Arab Spring of 2011 the Islamic State has altered the military balance in the Syrian intra state conflict and captured significant territory in Iraq Its military successes has attracted foreign fighters from more than 100 countries drawn in some cases by a sophisticated recruitment strategy that effectively combines a jihadist message with a social media outreach program targeting vulnerable Muslim populations in the region and the West The Islamic State has prompted renewed American and allied military intervention in Iraq and Syria and complicated the US relationship with its Iranian adversaries The New Islamic State examines the rise of the religious extremist organization from the ashes of al Qaeda in Iraq to its current efforts in Syria and Iraq and is designed to provide a comprehensive overview of the Islamic State its effects on the Persian Gulf and Greater Middle East and the response of both regional and great powers The book is suitable for academics policymakers and the general public
