*The Referral Engine* John Jantsch, 2012-09-25 The small business guru behind Duct Tape Marketing shares his most valuable lesson how to get your customers to do your best marketing for you The power of glitzy advertising and elaborate marketing campaigns is on the wane word of mouth referrals are what drive business today People trust the recommendation of a friend family member colleague or even stranger with similar tastes over anything thrust at them by a faceless company Most business owners believe that whether customers refer them is entirely out of their hands But science shows that people can't help recommending products and services to their friends it's an instinct wired deep in the brain And smart businesses can tap into that hardwired desire Marketing expert John Jantsch offers practical techniques for harnessing the power of referrals to ensure a steady flow of new customers Keep those customers happy and they will refer your business to even more customers Some of Jantsch's strategies include Talk with your customers not at them Thanks to social networking sites companies of any size have the opportunity to engage with their customers on their home turf as never before but the key is listening The sales team is the most important part of your marketing team Salespeople are the company's main link to customers who are the main source of referrals Getting them on board with your referral strategy is critical Educate your customers Referrals are only helpful if they're given to the right people Educate your customers about whom they should be talking to The secret to generating referrals lies in understanding the Customer Referral Cycle the way customers refer others to your company who in turn generate even more referrals Businesses can ensure a healthy referral cycle by moving customers and prospects along the path of Know Like Trust Try Buy Repeat and Refer If everyone in an organization keeps this sequence in mind Jantsch argues your business will generate referrals like a well-oiled machine This practical smart and original guide is essential reading for any company looking to grow without a fat marketing budget Warriors or Peacekeepers? Kjetil Enstad, Paula Holmes-Eber, 2020-04-25 As the past two decades of war in Afghanistan Syria Iraq Darfur and the Congo have revealed war in the twenty-first century looks nothing like the traditional state-to-state conflicts of World Wars I and II which defined the previous century Resolving today's conflicts typically based on complex ethnic religious economic and political dynamics requires far more than mere military strength and technology The military officer of today must simultaneously be a warrior and diplomat combatant and humanitarian worker soldier and peacekeeper But how can today's militaries prepare their leaders for such multifaceted roles Warriors or Peacekeepers seeks to provide answers to this question comparing and contrasting research on the successes and failures of military cultural education and training programs in seven different countries on three continents U.S. Canada Argentina Norway Denmark Germany and the Netherlands This anthology consists of three main sections The first addresses the theoretical issues of developing the warrior peacekeeper what constitutes cultural competence in the officer profession and the pedagogical challenges associated with developing such competence The second compares teaching practices from various military educational

institutions and provides insight into such issues as how language training can build cultural awareness helping officers navigate the ethical and moral challenges of dealing with gender in radically different cultures and the best didactic models to develop reflective skills in military leaders The third section examines the structural and organizational conditions which historically have aided or impeded educational and organizational change in the military This book will appeal to military academic communities educational institutions scholars in security studies peacekeeping and conflict studies and to decision makers in governments and administration      *Learning and Leading with Technology* ,2006      **Chess Life** ,2005
