Customer-Centric AI: Conversational Technologies, Personalization, and Ethical Innovation Zahara, Mahwish, 2025-08-13 Artificial intelligence AI is transforming how businesses engage with customers with conversational technologies like chatbots and voice assistants enabling more responsive and personalized experiences By leveraging data driven insights organizations can tailor interactions to individual preferences enhancing satisfaction and loyalty However this shift toward hyper personalization also raises ethical concerns related to privacy transparency and algorithmic bias Addressing these challenges is essential to fostering responsible innovation that respects user autonomy while maximizing the benefits of AI As AI continues to evolve placing the customer at the center of technological development is key to building trust and long term value in digital interactions Customer Centric AI Conversational Technologies Personalization and Ethical Innovation explores the transformative impact of AI on customer engagement focusing on how technologies are reshaping marketing service and personalization strategies It addresses the ethical implications of AI driven interactions highlighting issues of

privacy transparency and trust in digital environments Covering topics such as conversational AI customer service and social media this book is an excellent resource for marketing professionals customer experience and service managers business leaders and strategists AI developers data scientists graduate and postgraduate students policymakers researchers and more

Strategic Airline Retailing and Solutions Nawal K. Taneja,2023-11-07 While airlines have been looking into the next generation of retailing practices for several years developments since the beginning of 2020 have accelerated the need to take retailing to a new paradigm A singular focus now is the ever changing demands of the current and next generation of customers and employees and managing their values Examples of customer needs include a mobile first approach rich content augmented and personalized end to end services with seamless consistent and contextualized experiences While these concepts of retailing are not new the challenge has been in bringing them to reality due to a the constraints of legacy systems and processes while transitioning to next generation retailing systems b the inaccessibility of real time data coming from a wide variety of sources such as online shopping social media and operations c the inability to monitor real time behavior of customers and employees d the lack of effective collaboration and cooperation within the travel ecosystem and e the increasing lack of trust on the part of customers This book provides a framework and technologies to convert retailing concepts from shopping to fulfillment into reality by a renovating an airline s core and ancillary products b progressing faster on digital and organizational transformation journeys to make better data based decisions about retailing c getting better at managing customer value by knowing who the customers are d empowering supporting and listening to employees to meet their expectations e asking the right questions to solve complex retailing problems relating to customers competitors and stakeholders and f questioning common held beliefs about the airline business This book is indispensable for all airline executives and senior managers as well as airline and airport commercial managers It will also be enormously beneficial for retailers dealing with airlines and airports Smart Data Intelligence R. Asokan,Diego P. Ruiz,Vasile-Daniel

Păvăloaia,2025-11-07 This book presents high quality research papers presented at 5th International Conference on Smart Data Intelligence ICSMDI 2025 organized by Kongunadu College of Engineering and Technology at Trichy Tamil Nadu India during January 2025 This book brings out the new advances and research results in the fields of algorithmic design data analysis and implementation on various real time applications It discusses many emerging related fields like big data data science artificial intelligence machine learning and deep learning which have deployed a paradigm shift in various data driven approaches that tends to evolve new data driven research opportunities in various influential domains like social networks health care information and communication applications CINEMA INDUSTRY AND ARTIFICIAL INTELLIGENCE DREAMS prof.IBRAHIM ELNOSHOKATY, The learning Machin can write like Shakespeare yes it can do that but how can do the same wording the same style but create an emotional story or play can it or humans can like that or any passed away writer can the scientists create text to text deep learning machine learning from all of his production style
