Win Steve Lucas,2018-09-18 Engagement is the key to success for today s businesses The world we live in is radically different today from what it was even just five years ago It is hyperdigital and becoming more so every day Ironically we use connected to describe this new world yet we are asked to interact increasingly through apps and browsers instead of via face to face contact with customers and clients Even with all the incredible advances it s worth pondering whether organizations actually feel more connected to the people and the companies they do business with In Engage to Win author Steve Lucas introduces a new model for marketing to address this new hyper digital world one founded on engagement He introduces the idea that embracing and driving engagement throughout organizations and using it with customers prospects employees and partners is what will set companies apart This digital era demands that marketers understand the science of marketing in order to scale and succeed But if we embrace mathematics alone while abandoning feeling meaning and authenticity we will fail to deliver on the desires of our clients to feel listened to and understood So how do we win the heart and mind of the buyer in this new world Develop a real strategy around engagement by practicing these simple steps listen learn and engage Listening creates insights insights drive engagement and engagement drives revenue Truly engaging with customers will allow businesses to see in real time when customers wants and needs are changing so businesses will be able to adapt survive and ultimately thrive *AccessAsia* ,1995 *Digital Marketing* Dr. K R Kumar,Dr. S.
