The National Conference on Recent Innovations in Emerging Computer Technologies NCRIECT 2023 was held on the 9th and 10th of May 2023 at Kalinga University Raipur. The conference was aimed at bringing together researchers, scholars, academicians, and industry professionals to discuss the latest advancements and innovations in the field of computer technologies. The conference began with an opening ceremony where the chief guests and dignitaries were welcomed by the organizers. The keynote address was delivered by a renowned expert in the field of computer technologies who spoke about the importance of innovation in driving progress and growth in the industry. This was followed by technical sessions where researchers and professionals presented their papers on various topics related to computer technologies. The technical sessions covered a wide range of topics including but not limited to artificial intelligence, machine learning, data science, computer networks, security and privacy, computer graphics and visualization, software engineering, and emerging technologies. The presentations were well received by the audience who actively participated in the discussions and provided valuable feedback to the presenters. Apart from the technical sessions, the conference also featured a panel discussion on the topic of The Future of Computer Technologies. The panel comprised experts from academia and industry who shared their insights and perspectives on the future direction of the field. The discussion covered various topics such as the impact of emerging technologies like blockchain and quantum computing, the role of artificial intelligence and machine learning in shaping the future of work, and the challenges and opportunities in ensuring the ethical use of technology. Overall, the conference provided a platform for researchers and professionals to share their ideas, insights, and experiences and to collaborate and network with their peers. The organizers thanked all the participants and sponsors for their support in making the conference a success and announced plans to host a follow-up event next year.

**Handbook of Research on Digital Transformation, Industry Use Cases, and the Impact of Disruptive Technologies** Wynn, Martin

George, 2021-10-15. Companies from various sectors of the economy are confronted with the new phenomenon of digital transformation and are faced with the challenge of formulating and implementing a company-wide strategy to incorporate what are often viewed as disruptive technologies. These technologies are sometimes associated with significant and extremely rapid change in some cases with even the replacement of established business models. Many of these technologies have been deployed in unison by leading edge companies acting as the catalyst for significant process change and people skills enhancement. The Handbook of Research on Digital Transformation: Industry Use Cases and the Impact of Disruptive Technologies examines the phenomenon of digital transformation and the impact of disruptive technologies through the lens of industry case studies where different combinations of these new technologies have been deployed and incorporated into enterprise IT and business strategies. Covering topics including chatbot implementation, multinational companies, cloud computing, internet of things, artificial intelligence, big data and analytics, immersive technologies, and social media, this book is essential for senior management, IT managers, technologists, computer scientists, cybersecurity analysts, academicians,
