entrepreneurs educators and other startup accelerator stakeholders      Accelerate Luke Deering, Matt Cartagena, Chris Dowdeswell, 2013-12-14 Ever wondered what entrepreneurs learn from participating in the world's leading startup accelerator programs Accelerate is a great survey of a wide range of entrepreneurs that will give anyone interested in participating in an accelerator a deep understanding of what goes on Brad Feld Managing Director Foundry Group and Co founder of Techstars Key takeaways from Accelerate Do Stuff If you haven't acted at least twice as much as you've talked then there is something wrong User Acquisition it starts here and it ends here almost everything else depends on it Focus Know what's a waste of time and what's important In other words separate the ice cream from the horseshit the ice cream does nothing for the horseshit but the horseshit ruins the taste of the ice cream Accelerators In 1959 there was one accelerator incubator Batavia Industrial Center in New York in 2005 there was one accelerator Y Combinator which graduated a class of eight startups that included Reddit Now in 2013 there are hundreds of accelerators each offering a unique set of values The story this trend tells us is that accelerator programs are growing in popularity just as startups are Teams Accelerators pick teams not individuals not necessarily ideas and not your pitch Your team is the linchpin of it all it ties all the other good stuff together Accelerator Startup Fit You need to figure out what's most important to your company who you need to know what you need to know and which accelerator can get you that Know the type of founders industry experts and influencers you need to know If the network or community that you need to bring your product to market isn't there then it isn't there and maybe you shouldn't be either Fundraising is of course a factor but it shouldn't be of the highest priority The money you'll get out of an accelerator experience is one form of currency but the various other forms such as mentorship exposure and introductions have far greater multiplier effects than the linear nature of money      **Accelerate This!** Ryan Kushner, 2018-07-18 Soooo what is an accelerator and how do they actually work Are they worth it for entrepreneurs companies and investors What pieces of advice should ALL entrepreneurs know according to the experts If these are your questions Accelerate This is for you Written by Ryan Kushner The Accelerator Guy [www.acceleratorguy.com](http://www.acceleratorguy.com) Accelerate This features interviews and tips from the world's best programs Y Combinator Techstars 500 Startups Cleantech Open Google Alphabet X The Buckminster Fuller Institute XPrize Elemental Excelerator Free Electrons and many more and is backed by The World Bank WWF Asian Development Bank New Energy Nexus and The California Clean Energy Fund This highly visual thoroughly researched and super not boring book cuts through the confusion so you can Understand accelerators from the perspective of an entrepreneur investor organization or government Learn how to grow your idea into a business through Lean Startup Business Model Canvas Customer Development and more Understand if an accelerator is right for you Create an accelerator program or run yours better Bonus Each book comes with a carbon offset baked in so this is a carbon neutral book Buy enjoy share turn into paper airplanes and throw at your friends Just get busy doing creating and making positive change in the world We need it and we hope Accelerate This gives you the kick in the pants you are after

*Bend the Curve* Andrew Razeghi, 2015-03-02 It's supposed to look like a hockey stick up and to the right Growth curves of runaway hits are even more dramatic akin to field hockey sticks quick start short dip followed by an immediate near vertical climb in a northeasterly direction It's a beautiful thing The problem with growth curves is that they're like footprints in the sand You can only see them in hindsight To make matters more difficult innovation is a non-linear business Success does not come in the form of a straight line As Woody Allen suggests If you want to make God laugh tell him about your plans In the world of innovation there is no single path forward The only road that all entrepreneurs share is the road less travelled by But you can still learn from those who went before you what to do and what not to do in order to increase your odds of success *Bend the Curve* is a book about how to get more out of your big idea from people who know successful entrepreneurs the venture capitalists who've funded them and the experienced mentors of the world's leading new venture accelerator Techstars
