

Whirpool

The logo features the word "Whirpool" in a bold, black, sans-serif typeface. A thick, golden-yellow line, resembling a stylized wave or a vortex, curves around the text. It starts at the top right, loops over the "i" and "r", dips under the "p" and "o", and then rises to end at the bottom right, framing the word.

Diplomacy in a Whirlpool István Kertész (jurist.),1953 **The American Catalogue** ,1908 **Turkish Foreign Policy, 1943-1945** Edward Weisband,2015-03-08 As it became evident that the Allies were winning World War II Turkish policy makers struggled to achieve their objectives in the shifting circumstances of wartime diplomacy Edward Weisband's detailed description of Turkish foreign policy from 1943 to 1945 reveals that it was complicated by the fact that its two principal aims dictated contradictory positions The first aim was the priority of peace over expansionism this implied a noninterventionist policy On the other hand the belief that the Soviet Union represented the primary threat to the security of the Republic often made intervention to contain Russia seem necessary for national defense Turkish officials became determined to influence the postwar settlement towards an equilibrium among the great powers that would limit Soviet expansionism which the Turks assumed they could not do alone Consequently they were among the first to envision the contours of the Cold War After outlining the historical origins of the ideology that lay behind Turkish diplomacy the first part of the book concentrates on the policy making process in Ankara and assesses the relative influence of individual leaders and institutions The second part analyzes both Turkey's responses to the exigencies of war and the general nature of small state diplomacy Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *The American Catalogue ... July 1, 1876-Dec. 31, 1910* ,1908

The Publishers Weekly ,1907 **Alphabetical Finding List** Princeton University. Library,1921 Stratospheric Ozone Damage and Legal Liability Lisa Elges,2016-12-19 While government enforcement of laws and regulations to control the production of chlorofluorocarbons in 1987 has been hailed as exemplifying the precautionary principle for almost two decades US companies failed to take precautionary measures to prevent chemical emissions despite the probable risk of stratospheric ozone loss As a result human harms in the form of skin cancer have reached epidemic proportions globally and in the United States where today one person dies every hour from skin cancer This book reviews U S laws regulations and policies as well as case law regarding similar toxic tort cases to consider whether companies can and should be held legally liable under tort common law theories and related tort justice theories for having contributed to increased risks of skin cancer The American Catalogue ... ,1941 **Balancing the Protection of Foreign Investors and States Responses in the Post-Pandemic World** Yulia Levashova,Pascale Accaoui Lorfing,2022-05-11 The COVID 19 pandemic has brought the debate on reform of the international investment agreement regime to the fore with renewed force In this important and timely book top professionals in the field collectively offer an in depth investigation of the measures that States have taken or

failed to take to deal with the pandemic's consequences and whether these actions or inactions can be construed as investment arbitration risks. In an extensive overview of the impact of COVID 19 on States and investors including perspectives from UNCTAD, the European Union, the United States, Russia, India, South Korea, and the African Union, this comprehensive guide on State defences and investor protection mechanisms tackles such aspects of the debate as the following: as affected by the pandemic, treatment of investors in times of pandemic and in the post pandemic world, sufficient contribution to the economic development of the host State, disparities in bargaining power and use of pandemic power to accord preferential treatment. The final part of the book is dedicated to analysing case studies from around the world in the context of the pandemic and investor State disputes. Understanding the way public health emergencies can shape international investment law is key to building a sustainable, stable investment environment. As the first detailed study of the post pandemic development of investment law, this matchless collection takes a giant step toward reconciling the interests of foreign investors and sovereign States at various stages of economic development. With practical recommendations for both States and investors, it will be of immeasurable assistance to practitioners, policymakers, and academics in anticipating and dealing not only with COVID related measures but also with similar future contingencies.

Public Administration and Regional Management in Russia Elena G. Popkova, Konstantin V. Vodenko, 2020-04-10. This book addresses current challenges in public administration and regional management in Russia. By taking into account socio-economic factors as well as key ethnic, cultural, and social processes in multicultural regions, it identifies the prerequisites for successful public governance and regional management. The respective contributions cover a broad range of topics including digitalization trends, managerial approaches, diversification strategies, and corporate cultures. Moreover, the book discusses the effects of ethnopolitical tensions and interethnic tolerance on public administration in Russia's multicultural regions. Given its scope, the book offers a valuable resource for scholars and public servants at governmental institutions.

Ending the Troubles John M. Burney, Andrew J. Auge, 2024-10-29. In June 1996, the British government convened multiparty talks trying to establish peace within Northern Ireland after thirty years of bloody civil war based on religious, cultural, political, and economic tensions known as The Troubles. The talks included political parties from the two factions central to the conflict: Unionists, largely Protestants, committed to retaining Northern Ireland within the United Kingdom; and Nationalists, largely Catholics, committed to the reunification of Northern Ireland with the independent Republic of Ireland. Fundamental questions on national identity and democracy quickly turned these proceedings into faction bickering, thus failing to produce any substantive progress. The emergence of new leaders in 1997, Tony Blair, prime minister of Great Britain, and Bertie Ahern, taoiseach in the Republic of Ireland, created an opportunity for reenergizing the talks, chaired by the former US senator George Mitchell, with all parties making a concerted effort to reach a viable resolution among Nationalists and Unionists. In the game, students will represent the major parties in Northern Ireland as they reconvene at the multiparty talks in 1997 to

find ways to reconcile two competing visions of Northern Irish nationalism or at least find a way for each community to tolerate one another's participation in a common constitutional arrangement Much is at stake for another failure could lead to a full resumption of the civil war

Environmental Politics for a Changing World Ronnie D. Lipschutz, Doreen Stabinsky, 2018-07-12 This book argues that environmental problems are first and foremost political and therefore about power Using a framework of political economy and political ecology the authors deconstruct current environmental problems to identify root causes and address those problems through mobilization of collective action and social power The second edition also offers Updated examples and stories of political struggles and the actors involved Explicit attention to various forms of power in environmental politics including structural and social power Local politics and collective action as related to global environmental politics Discussion of emerging issues such as synthetic biology commodification and financialization of nature including carbon markets and geoengineering National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1991
