TRAXLER,2020 Entrenchment in Usage-Based Theories Alice Blumenthal-Dramé,2012-12-06 This book explores the usage based claim that high usage frequency leads to the entrenchment of complex words in the minds of language users To probe the correlation between corpus extracted usage data and mental entrenchment the author operationalises entrenchment in Gestalt psychological terms and conducts a series of behavioural and neuroimaging experiments

The Routledge Companion to Linguistics in India Hemalatha Nagarajan,2022-10-20 This companion offers a unique introductory study of linguistics in India Well supplemented with sample problems and linguistic puzzles to bolster analytical skills and logical reasoning it promotes a unique inquiry based approach to learning linguistics The volume looks at all the major subdisciplines of linguistics including phonetics phonology morphology semantics syntax and the interdisciplinary domains of psycholinguistics and neurolinguistics It provides a wealth of data not only from many Indian languages belonging to the primary language families present in the country Indo Aryan Dravidian Austro Asiatic and Tibeto Burman but also from the endangered languages of the Tai Kadai family of Assam and the Greater Andamanese family The author gives a holistic view of the linguistic landscape of India and fills a significant gap in the study of the lesser known languages of South Asia This volume will be an excellent resource for students and researchers of Indian languages cultural studies South Asian studies and all branches of linguistics

Linguistics for the Age of AI Marjorie Mcshane,Sergei Nirenburg,2021-03-02

A human inspired linguistically sophisticated model of language understanding for intelligent agent systems One of the original goals of artificial intelligence research was to endow intelligent agents with human level natural language capabilities Recent AI research however has focused on applying statistical and machine learning approaches to big data rather than attempting to model what people do and how they do it In this book Marjorie McShane and Sergei Nirenburg return to the original goal of recreating human level intelligence in a machine They present a human inspired linguistically sophisticated model of language understanding for intelligent agent systems that emphasizes meaning the deep context sensitive meaning that a person derives from spoken or written language
