for example the Burakumin in Japan and the Hutu and Twa in Rwanda At the beginning of the twenty first century there were over 160 million untouchables on the Indian subcontinent The British had granted special political representation to the Untouchables and also started a system of reservations in government jobs in the early 1940s The scheduled castes became politically distinct under the leadership of Bhimrao Ramji Ambedkar Ambedkar who converted from Hinduism to Buddhism at the end of his life in 1956 held that the Untouchables had been Buddhists isolated and despised when Brahmanism became dominant about the fourth century While Ambedkar supported by the British pursued all means of securing special rights for Untouchables Gandhi opposed those measures as too divisive condemning untouchability without renouncing Varna

S. Lokhande, 1982 Life work and philosophy of Bhimrao Ramji Ambedkar 1892 1956 Indian social and political activist The Untouchables of India Robert Delègue, 1999-06 The subjugation of millions of people in a caste system that is a radical form of apartheid has long had its critics both from within India and from outside it Although the government has introduced equal opportunity legislation in an effort to right some of history's wrongs untouchability is an accident of birth that continues to stigmatize and ostracize more than one hundred and forty million people Untouchables remain on the bottom of the socioeconomic scale and are found more often than not in unskilled low status occupations They are forbidden to enter temples often beg for their food must leave their chests uncovered and silently endure public humiliations and insults They remain on the fringes of society and it is even said by some that their shadows pollute passersby This excellent book addresses the problem of untouchability by providing an overview of the subject as well as penetrating insights into its social and religious origins The author persuasively demonstrates that untouchability is a deeply ambiguous condition neither inside nor outside society reviled yet indispensable untouchables constitute an original category of social exclusion This is reflected in the various social movements they have led over the last century and more The situation of untouchables is crucial to the understanding of caste dynamics especially in contemporary circumstances but emphasis particularly within anthropology has been placed on the dominant aspects of the caste system rather than on those marginalized and excluded from it This important book redresses this problem and represents a vital contribution to studies of India Hinduism human rights history sociology and anthropology
