Surveillance Education Nolan Higdon,Allison Butler,2024-08-02 Surveillance Education explores the pervasive use of digital surveillance technologies in schools and assesses its pernicious effects on students Recognizing that the use of digital technologies will persist the authors instead offer practical ways to ameliorate their impact In our era of surveillance capitalism digital media technologies are ever more intertwined into the educational process Schools are

presented with digital technologies as tools of convenience for gathering and grading student work as tools of support to foster a more equitable learning environment and as tools of safety for predicting or preventing violence or monitoring mental emotional and physical health Despite a dearth of evidence to confirm their effectiveness digital data collection and tracking is often presented as a way to improve educational outcomes and safety This book challenges these fallacious assumptions and argues that the use of digital media technologies has caused great harm to students by subjecting them to oppressive levels of surveillance impinging upon their right to privacy and harvesting their personal data on behalf of Big Tech In doing so the authors draw upon interviews from K 12 and higher education students teachers and staff civil rights and technology lawyers and educational technological programmers The authors also provide practical guidance for teachers administrators students and their families seeking to identify and combat surveillance in education This urgent eye opening book will be of interest to students and educators with interests in critical media literacy and pedagogy and the sociology of technology and education

How to Start Your Own Cybersecurity Consulting Business Ravi Das,2022-08-04 The burnout rate of a Chief Information Security Officer CISO is pegged at about 16 months In other words that is what the average tenure of a CISO is at a business At the end of their stay many CISOs look for totally different avenues of work or they try something else namely starting their own Cybersecurity Consulting business Although a CISO might have the skill and knowledge set to go it alone it takes careful planning to launch a successful Cyber Consulting business This ranges all the way from developing a business plan to choosing the specific area in Cybersecurity that they want to serve How to Start Your Own Cybersecurity Consulting Business First Hand Lessons from a Burned Out Ex CISO is written by an author who has real world experience in launching a Cyber Consulting company It is all encompassing with coverage spanning from selecting which legal formation is most suitable to which segment of the Cybersecurity industry should be targeted The book is geared specifically towards the CISO that is on the verge of a total burnout or career change It explains how CISOs can market their experience and services to win and retain key customers It includes a chapter on how certification can give a Cybersecurity consultant a competitive edge and covers the five top certifications in information security CISSP CompTIA Security CompTIA CySA CSSP and CISM The book s author has been in the IT world for more than 20 years and has worked for numerous companies in corporate America He has experienced CISO burnout He has also started two successful Cybersecurity companies This book offers his own unique perspective based on his hard earned lessons learned and shows how to apply them in creating a successful venture It also covers the pitfalls of starting a consultancy how to avoid them and how to bounce back from any that prove unavoidable This is the book for burned out former CISOs to rejuvenate themselves and their careers by launching their own consultancies

Business Recovery and Continuity in a Mega Disaster Ravi Das,2022-04-20 The COVID 19 pandemic has had so many unprecedented consequences The great global shift from office work to remote work is one such consequence with which many information security professionals are struggling Office

workers have been hastily given equipment that has not been properly secured or must use personal devices to perform office work The proliferation of videoconferencing has brought about new types of cyber attacks When the pandemic struck many organizations found they had no or old and unworkable business continuity and disaster recovery plans Business Recovery and Continuity in a Mega Disaster Cybersecurity Lessons Learned from the COVID 19 Pandemic reviews the COVID 19 pandemic and related information security issues It then develops a series of lessons learned from this reviews and explains how organizations can prepare for the next global mega disaster The following presents some of the key lessons learned The lack of vetting for third party suppliers and vendors The lack of controls surrounding data privacy especially as it relates to the personal identifiable information PPI data sets The intermingling of home and corporate networks The lack of a secure remote workforce The emergence of supply chain attacks e g Solar Winds To address the issues raised in these lessons learned CISOs and their security teams must have tools and methodologies in place to address the following The need for incident response disaster recovery and business continuity plans The need for effective penetration testing The importance of threat hunting The need for endpoint security The need to use the SOAR model The importance of a zero trust framework This book provides practical coverage of these topics to prepare information security professionals for any type of future disaster The COVID 19 pandemic has changed the entire world to unprecedented and previously unimaginable levels Many businesses especially in the United States were completely caught off guard and they had no concrete plans put into place from a cybersecurity standpoint for how to deal with this mega disaster This how to book fully prepares CIOs CISOs and their teams for the next disaster whether natural or manmade with the various lessons that have been learned thus far from the COVID 19 pandemic
