Build A Business Around Your Curiosity: Learn, Build, Share, Sell, Repeat Ahmed Musa, What if your curiosity wasn't a distraction but your greatest business asset This book is your permission slip to stop waiting for clarity and start building with what fascinates you Instead of following someone else's formula you'll discover how to turn your natural interests into powerful income engines without burning out faking expertise or locking yourself into one narrow niche You don't need to have it all figured out You don't need a perfect plan What you

need is a loop learn something new build something small share it publicly offer it for sale and repeat That s how momentum builds That s how trust compounds And that s how modern creators are turning curiosity into profitable businesses without losing themselves in the process This approach works whether you re just getting started or reimagining your next chapter It honors the way creative minds naturally work driven by questions inspired by patterns and fueled by experimentation You ll learn how to validate ideas by sharing your process how to grow an audience by inviting them into your learning journey and how to make money by offering simple valuable products that emerge from what you ve already explored You don t need to commit to a single topic forever You just need to commit to the loop Curiosity leads to learning Learning leads to building Building leads to sharing Sharing leads to sales Sales fund your next round of curiosity The old business model says you need to know everything upfront The new business model says start with what you re curious about and let that be more than enough This is the book for creative minds ready to turn their questions into income and their interests into impact Learn Build Share Sell Repeat

Agile 2 Cliff Berg,Kurt Cagle,Lisa Cooney,Philippa Fewell,Adrian Lander,Raj Nagappan,Murray Robinson,2021-03-09 Agile is broken Most Agile transformations struggle According to an Allied Market Research study 63% of respondents stated the failure of agile implementation in their organizations The problems with Agile start at the top of most organizations with executive leadership not getting what agile is or even knowing the difference between success and failure in agile Agile transformation is a journey and most of that journey consists of people learning and trying new approaches in their own work An agile organization can make use of coaches and training to improve their chances of success But even then failure remains because many Agile ideas are oversimplifications or interpreted in an extreme way and many elements essential for success are missing Coupled with other ideas that have been dogmatically forced on teams such as agile team rooms and an overall inertia and resistance to change in the Agile community the Agile movement is ripe for change since its birth twenty years ago Agile 2 represents the work of fifteen experienced Agile experts distilled into Agile 2 The Next Iteration of Agile by seven members of the team Agile 2 values these pairs of attributes when properly balanced thoughtfulness and prescription outcomes and outputs individuals and teams business and technical understanding individual empowerment and good leadership adaptability and planning With a new set of Agile principles to take Agile forward over the next 20 years Agile 2 is applicable beyond software and hardware to all parts of an agile organization including Agile HR Agile Finance and so on Like the original Agile Agile 2 is just a set of ideas powerful ideas To undertake any endeavor a single set of ideas is not enough But a single set of ideas can be a powerful guide
