Inquiries of Pedagogical Shifts and Critical Mindsets Among Educators Gierhart, Aaron R.,2024-02-19 Pedagogical research faces a challenge in acknowledging and integrating the valuable insights provided by narrative inquiries particularly those centered around educators tipping points Despite the richness of these narratives in understanding pedagogy there exists a bias towards traditional quantitative research methods leading to limited recognition and acceptance of qualitative studies This lack of acceptance poses a barrier to leveraging the authentic experiences of educators for designing effective professional development and teacher education opportunities The key challenges include the undervaluation of narrative inquiries concerns about generalizability the need to balance authenticity with research rigor and the restricted influence on professional development due to the limited integration of narratives into the research base Addressing these challenges is crucial for fostering a more holistic understanding of pedagogical development and improving the quality of teacher education Inquiries of Pedagogical Shifts and Critical Mindsets Among Educators delves into unexplored pedagogy through a compendium of original research studies The focus is on narrative inquiries case studies and phenomenological investigations offering a nuanced understanding of pedagogical shifts and critical mindsets among P 16 educators Inspired by Novoa s conceptualization of Tipping Points the book unfolds the narratives and lived experiences that propel educators toward transformative shifts in their teaching methodologies **The Rebirth of Suspense** Rick

Warner,2024-09-17 Typically films are suspenseful when they keep us on the edge of our seats when glimpses of a turning doorknob a ticking clock or a looming silhouette quicken our pulses Exemplified by Alfred Hitchcock s masterworks and the countless thrillers they influenced such films captivate viewers with propulsive plots that spur emotional investment in the fates of protagonists Suspense might therefore seem to be a curious concept to associate with art films featuring muted characters serene landscapes and unrushed rhythms in which plot is secondary to mood and tone This ambitious and wide ranging book offers a redefinition of suspense by considering its unlikely incarnations in the contemporary films that have been called slow cinema Rick Warner shows how slowness builds suspense through atmospheric immersion narrative sparseness and the withholding of information causing viewers to oscillate among boredom curiosity and dread He focuses on works in which suspense arises where the boundaries between art cinema and popular genres such as horror thriller science fiction and gothic melodrama become indefinite including Chantal Akerman s *La captive* Apichatpong Weerasethakul s *Memoria* Jonathan Glazer s *Under the Skin* Kelly Reichardt s *Night Moves* Lucrecia Martel s *Zama* Kiyoshi Kurosawa s *Creepy* and David Lynch s *Twin Peaks The Return* Warner investigates the pivotal role of sound in generating suspense and

traces how the experience of suspense has changed in the era of digital streaming The Rebirth of Suspense develops a fresh theory history typology and analysis of suspense that casts new light on the workings of films across global cinema
