

4.5 Comment on the liquidity position of the company. Quote THREE relevant financial indicators (actual figures/ratios/percentages) and their trends.

Any THREE valid financial indicators:

Name of financial indicator	✓	✓	✓
Figure and trend	✓	✓	✓

- Current ratio: 3,6 : 1 → 1,6 : 1 / decreased to 1,6 : 1
- Acid test ratio: 3,1 : 1 → 1,2 : 1 / decreased to 1,2 : 1
- Stock turnover rate: 5,1 → 6,8 times p.a / increased to 6,8 times
- Debtors' collection period: 35 → 40 days / increased to 40 days

General comment: For 3 marks (need only mention 3 indicators):

The liquidity has generally improved. The current ratio and acid-test ratio were too high in 2013. They are now much more efficient in 2014. The stock is now being sold more quickly which will generate greater profit. However the debtors are paying slightly more slowly – this trend must be rectified next year.

One valid point per indicator **OR** 3 marks for overall comment:
Excellent answer = 3 marks; Good = 2; Poor = 1; Incorrect = 0
Increases/decreases are not a comment – these are trends
Comment would be on improvement or not / efficiency

Expected responses for 1 mark each:

- The current ratio improved / was possibly too high in 2013 / cash was too high / current assets do not earn any return / they may be more efficient in 2014.
- The acid test ratio improved / is more efficient in 2014 / cash is lower
- The stock turnover rate has improved / stock increased but is being sold more quickly / assists liquidity and is appropriate for a supermarket.
- The debtors are paying more slowly / this trend must be rectified / normal credit terms 30 days.

9

4.6 The directors decided to increase the loan during the current financial year. Quote TWO financial indicators (actual figures/ratios/percentages) that are relevant to their decision. Explain why this was a good decision, or not.

ROTC ☒

- This is 18,8% ☒

DEBT/EQUITY RATIO ☒

- This is 0,1 : 1 (see 4.4.2) ☒

Explanation: Depends on calculation above

- Positively geared as ROTC is higher than interest rate ☒
- Low financial risk / Not making much use of loans (it relies more on funds from internal sources) ☒
