chapter

Analyzing Transactions

OPENING COMMENTS

Chapter 2 is the most important chapter in the text. It introduces students to the rules of debit and credit, chart of accounts, two-column journals, four-column ledgers, T accounts, and the trial balance. Quite frankly, if students fail to grasp the concepts in this chapter, the first seeds of destruction will be sown for those students who will ultimately withdraw from or fail the course.

Emphasize that Chapter 2 builds the foundation for all that will be learned about accounting principles. Unlike many other college courses, it is impossible to understand Chapter 3 and beyond if the principles of Chapter 2 are not mastered. You need to dispel the false belief that “maybe I’ll get the next chapter—even though I’m totally lost now.”

Also encourage your students to seek help immediately if they begin to struggle with course content. Make them aware of the resources available at your institution: tutorial services, peer assistance, your office hours, use of CengageNOW, and support services, etc. Too frequently, students wait until after they have failed their first examination to seek help. For those who heed them, these simple suggestions will help students avoid failure.
