Postmodifying Attributive Adjectives in English Lars M. Blöhdorn, 2009 This study investigates three different postmodifying adjective constructions in the English language While English adjectives generally precede the entities they modify they may also occur in postmodifying position This study assumes that the different postmodifying constructions are a positional variation of attributive premodification The support for this claim is derived from a detailed analysis of the general syntax and semantics of adjectives as well as a cross check of previous theories with a wide range of actual language examples taken from computerized corpora An approach from the Prague School Functional Sentence Perspective enables this study to accomplish an integrated view of adjectival postmodification

Georgopoulos, Roberta Ishihara, 2012-12-06 The thirty two papers in this collection are offered to Professor S Y Kuroda by his friends as a gesture of their deep respect and enduring affection One of the many ways in which Professor Kuroda has impressed us all is in the breadth of his interests and areas of

expertise He is one of those rare scholars whose work and interests span the whole range of his discipline He is a figure of such intellectual stature that he has inspired influenced and encouraged researchers in an astonishing variety of projects He continues to do so at an unslackened pace today just as his own productivity remains vigorous But mention of Yuki's inspiration and influence is inadequate without mention of his special humorousness his mischievous wit his charm and as a friend has added a unique warmth Knowing Yuki and counting him quality to our lives We who have contributed to this collection have done so in partial acknowledgement of and gratitude for this benign and masterful influence The contributions to the collection reflect the range of Yuki's own interests and cover a rich variety of approaches to the analysis of natural language These include papers in philosophy psychology computer science artificial intelligence and linguistics and within linguistics the entire breadth of the field phonology morphology syntax semantics pragmatics and computation Though diverse in their themes language areas and foci the papers are bound by their authors common bond to Yuki

The Syntax of Prenominal and Postnominal Adjectives in Old English Agnieszka Pysz, 2009 This book is the first monograph which provides a comprehensive discussion of the syntactic behaviour of Old English OE adnominal adjectives Drawing on the empirical data retrieved from the York Toronto Helsinki Parsed Corpus of Old English Prose Taylor Warner Pintzuk Beths 2003 the author proposes an analysis of OE adjectives by means of a theoretical apparatus couched in the framework of

Chomsky T M s generative grammar The analysis incorporates the following properties of OE adjectives their inflectional patterning i e whether adjectives take oeweak and oestrong inflectional endings the so called adjective stacking i e whether adjectives can occur in uninterrupted strings the surface placement with respect to their complements the surface placement with respect to the nominal head The author observes that the differences between prenominal and postnominal adjectives go far beyond the superficial difference in their surface placement She argues therefore that the two types of adjectives require two different theoretical treatments The volume consists of five chapters It is supplemented by four appendices and an extensive bibliography
