Flexible Lives Stefanie Reissner,Michal Izak,2025-08-07 This geographically and methodologically diverse volume shines the spotlight on a variety of flexible working practices beyond the predominantly Western perspective and zooms in on the gendered aspects of flexible working The increasing use of flexible work arrangements has decoupled work from time and space making the world of work and home increasingly fluid and challenging to manage The Covid 19 pandemic in particular has been a catalyst for questioning accepted norms of where when and how work takes place This book seeks to explore the impact which this reshaping of traditional modes of working has had on workplace interactions and relationships as well as on managing the boundaries between familial and working lives In this way this collection contributes to a wider dialogue concerning the flexibility challenges encountered by white collar workers which is needed now more than ever This book will be relevant to scholars practitioners and policymakers in the fields of gender studies organizational behavior human resources and labor economics It will be particularly useful for those examining the impact of remote work the future of work organizational culture and the social and economic implications of shifting work practices The chapters in this book were originally published in Culture and Organization and are accompanied by an updated Introduction and a new Epilogue

Building New Nuclear Great Britain. Parliament. House of Commons. Energy and Climate Change Committee,2013 Failure to build a new fleet of nuclear power stations in the UK could make it much more expensive to meet our climate change targets and Ministers must urgently develop a back up energy strategy The nuclear industry has outlined plans that

would deliver 16GW new nuclear power stations by 2025 Although the Government and industry have learnt some important lessons from this process there are still a number of obstacles which could delay new build projects in the UK The Committee supports the Government s use of Contracts for Difference CfDs to help make new nuclear power stations easier to finance but are concerned at the lack of transparency around the price negotiations The new contracts must provide value for money for consumers and should not be offered at a price that is higher than other low carbon sources of energy such as offshore wind which is hoped to be around 100 MWh by 2020 Public attitudes have an important role to play in projects to build new nuclear power stations The Committee is concerned that local communities might not be able to take part in planning consultations on an equal footing with the project developers The report recommends that the Government should consider providing more support to local community groups so that they can engage better with the planning process The Government has plans to allow local authorities hosting renewable energy projects to retain business rates The report argues that this scheme should be extended to new nuclear projects too Closing the Gap Tshilidzi Marwala,2022-08-01 UPDATED

EDITION A holistic take on AI from an African perspective Closing the Gap joins the dots on deploying AI efficiently into everyday business and life RENUKA METHIL editor of Forbes Africa This book simplifies complex concepts through relatable stories and awakens fellow Africans to the opportunities ushered in by the 4IR Closing the Gap must occupy our waking times MTETO NYATI chief executive of Altron Closing the Gap is an accessible overview of the fourth industrial revolution 4IR and the impact it is set to have on various sectors in South Africa and Africa It explores the previous industrial revolutions that have led up to this point and outlines what South Africa s position has been through each one With a focus on artificial intelligence as a core concept in understanding the 4IR this book uses familiar concepts to explain artificial intelligence how it works and how it can be used in banking mining medicine and many other fields Written from an African perspective Closing the Gap addresses the challenges and fears around the 4IR by pointing to the opportunities presented by new technologies and outlining some of the challenges and successes to date **New Scientist** ,2008 Broadcasting ,1982-07
