## **Aces High 1 11 Aircombat:**

**Aces High** Christopher F. Shores, Clive Williams, 1966 Beretter om jagerpiloter der under 2 verdenskrig i RAF opn ede nedskydninger af fjendtlige fly herunder danskeren Kaj Birksted som blev Wing Commander Oberstl jtnant i de norske flyvestyrker under RAF **The Air Force Comptroller** ,1993 **Flypast** ,2008 **With Great Sacrifice and Bravery** Glenn Knoblock, 2004-05 This work is presented to the reader with several ideas in mind First it is the author s hope that in some small way it will help preserve the memory of a little known pilot who fought not only for his own country but also for France and England during the early dark days of World War II While Waclaw Lapkowski was an experienced pilot who became one of Poland s aces during the war his early demise like that of so many others has relegated his achievements to the back pages of history making them nearly forgotten However in referring to pilots such as Lapkowski the great British ace Robert Stanford Tuck cites the many men who were credited with six seven or eight victories pilots that formed the bulk and guts of our fighter force The second reason for producing this work is the unique use of official combat and operations reports from the Royal Air Force RAF Many of those who are interested in World War II aviation and fighter aces have read the biographies and first hand accounts of air combat contained within of such men as Douglas Bader Witold Urbanowicz Adolph Galland and Gregory Pappy Boyington to name just a few But what of those aces that did not survive to tell their story How are they to be remembered In the case of those who served with the RAF the answer is in part through the use of official combat reports and related documents While these official RAF and Polish Air Force PAF records do not sound particularly exciting a glance at the surviving records quickly proves otherwise Indeed the title of this book consists of a borrowed phrase from one such report and is a small example of the many dramatic events recorded within often in the pilot s own words While these reports have been an important source for many works on the RAF and PAF and its achievements during the war never before to the author s knowledge have official combat reports been presented to the reading public in their original form Though not originally intended for public view they nonetheless make for exciting and informative reading and will be of interest not only to those with a passing interest in World War II aviation but to the serious student as well While the author was unable to obtain combat reports for all of Lapkowski s flights those that were procured for September 1940 and June 1941 are of particular interest as they highlight all of the kills that he made while serving in the RAF The final reason for choosing to write about Waclaw Lapkowski is due to the availability of wartime artifacts connected with his service in the RAF About a year ago the author came in contact with a man who owned a portion of Lapkowski s Hurricane fighter which was legally excavated in 1979 The author subsequently obtained a small piece of the wreckage for his personal collection while the collector retained the remains of its Merlin engine the prop boss its Browning machine guns and other items formerly on display at an aviation museum Once this artifact was in the author s possession he became interested in finding out about Lapkowski his career and his subsequent fate While this work gives much information about 303 Squadron it is not

however a squadron history While a book entitled Squadron 303 was published in London in 1942 written by Arkady Fiedler it was not intended as an exacting history of the unit Instead it was a nice work of wartime public relations to help explain the Polish contribution in general terms during the Battle of Britain Despite its shortcomings Fiedler s book deserves its own place in the annals of aviation history Copies by the thousands were smuggled into Nazi held Poland and served not only to show that those who had left Poland were still fighting for their country but served as an inspiration to those left behind to continue their resistance No definitive squadron history has yet been translated into English What the author found out from the official combat reports and various published sources uniquely combined with available archaeological artifacts was fascinating What emerged from the records is a story worth telling Waclaw Lapkowski though not famous like such other Polish aces as Stanislaw Skalski Jan Zumbach or Urbanowicz had an interesting and distinguished career He was in the thick of battle at the outset of the war when Germany invaded Poland on September 1 1939 and saw subsequent service during the Battle of France and the Battle of Britain in 1940 He achieved air victories in two out of three of these campaigns and is one of only a handful of men less than 150 in number who served in all three campaigns To borrow a phrase from the British Waclaw Lapkowski truly was one of The Few men whose skill and bravery helped stem the tide of German aggression and made Allied victory possible at the cost of their own lives Air University Library Index to Military Periodicals ,1991

Air Aces Christopher F. Shores,1983 Describes the careers of famous fighter pilots from World War I through the air war over the Falkland Islands in 1982 **World War I** Andrew Wiest,2016-12-15 The first world war which was supposed to be the war to end all wars is analyzed and retold in this title in the Primary Sources in World Warfare series Broken down for students by region chronology and strategy the text provides a comprehensive history paired with primary sources and photos Sidebars feature key military and political figures illustrations and fact boxes identify weapons and military innovations and maps show the progress and devastation of the conflict that would span the globe Students will explore the causes results and military techniques of World War I in illustrated detail Current Military Literature ,1985 Comment and abstracts citations of important articles from international military and defence periodicals **Computer Gaming World** ,1997 *Air Trails Pictorial* ,1968 *CD-ROMs in Print* ,2003 **Attack of the Airacobras** Dmitrii Fedorovich Loza,2002 Focusing on the combat operations and daily life of one unit the 9th Guards Fighter Division Loza refutes the myth that the P 39 was used mainly as a tank buster or flying artillery Instead its primary mission was to protect Red Army operations from aerial attacks by the enemy So despite the occasional strafing of trains truck convoys and troops most P 39 operations involved attacks on Luftwaffe bombers and dogfights with their fighter escorts **BOOK JACKET U.S. News & World Report** ,1992 *Technical Bulletin - Texas Engineering Experiment Station* Texas Engineering Experiment Station,1977 **The Great World War, 1914-45: Lightning strikes twice** Peter Liddle,J.
