Emerging Stronger Jeffrey Chin, Michele Lee Kozimor, 2023-08-31 Responding to the sudden and far reaching implications of the COVID 19 pandemic in college classrooms and on campus

Emerging Stronger assembles an original compilation of chapters that revisit, reframe and refine the practice of teaching in a fundamentally altered landscape. Cultivated from a wide array of different fields from sociology and political science to literature and secondary education, expert contributors to this volume extend their scholarship on teaching and learning and offer thoughtful pieces about curricular innovation, teaching tools and techniques, and evidence-based approaches that will interest dedicated faculty in any discipline. The chapters fall into three categories: Modalities of Teaching and Learning, Pedagogical Strategies, and Student Engagement, each of which carries an all-important focus on what readers should know about best practices now and for the foreseeable future. Whether experienced faculty scholars just starting out in their teaching careers or aspiring graduate students, readers of this volume will come away with great techniques and strategies, but also community, hope, and opportunity to strengthen their teaching and provide better learning environments in their classrooms.

Manager's Guide to Employee Engagement Scott Carbonara, 2012-10-02. Effective managers know that their job is to help employees do their best work, not to give them orders. This enables leaders at all levels to build relationships that support collaboration and drive meaningful performance improvement. And when a team succeeds, everybody wins. *Broadcasting & Cable*, 2008-10. *PC Magazine*, 2007.

Creating an Online Community of Action Researchers Josef Huber (Educator), Branko Bogner, Pascale Mompoin-Gaillard, 2017. The Council of Europe's Pestalozzi Programme promotes the message of the Organisation and its values: human rights, democracy, and the rule of law in the practice of education, formal, non-formal, and informal, and aims to support member states in including these ideals in their education systems. Basing its approach to professional development firmly on social constructivism and social constructionism, it invests in educators who create new practices. This book represents an example of a transformational enterprise in which several practitioners from different parts of Europe gather in the Pestalozzi Programme community of practice and set out to learn how to become action researchers. While many books focus on how to carry this out, this publication is action research in action. In addition, it features examples of how participants can use online social platforms and affordable web applications in their collaboration and learning practices. *The Hollywood Reporter*, 2007-03. **The Economist**, 2009. *Adweek*, 2008-04. **The Times Index**, 2013-02.
