Perfect Copies Shiamin Kwa, 2023-01-13 Analyzing the way that recent works of graphic narrative use the

comics form to engage with the problem of reproduction Shiamin Kwa's *Perfect Copies* reminds us that the mode of production and the manner in which we perceive comics are often quite similar to the stories they tell *Perfect Copies* considers the dual notions of reproduction mechanical as well as biological and explores how comics are works of reproduction that embed questions about the nature of reproduction itself Through close readings of the comics *My Favorite Thing Is Monsters* by Emil Ferris *The Black Project* by Gareth Brookes *The Generous Bosom* series by Conor Stechschulte *Sabrina* by Nick Drnaso and *Panther* by Brecht Evens *Perfect Copies* shows how these comics makers push the limits of different ideas of reproduction in strikingly different ways Kwa suggests that reading and thinking about books like these that push us to engage with these complicated questions teaches us how to become better readers *Telling Science Stories* Martin W. Angler, 2020-03-13 A practical manual for anyone who wants to turn scientific facts into gripping science stories this book provides an overview of story elements and structure guidance on where to locate them in scientific papers and a step by step guide to applying storytelling techniques to writing about science In this book Martin W Angler outlines basic storytelling elements to show how and where fledgling science storytellers can find them in scientific output Journalistic techniques like selection through news values and narrative interviews are covered in dedicated chapters A variety of writing techniques and approaches are presented as a way of framing science stories in ways that are informative and compelling in different media from short films to news articles Practical examples selected interviews and case studies complement each chapter with exercises and experimentation suggestions included for deeper understanding Review questions at the end of each chapter cement the newly gained knowledge to make sure readers absorb it with links to articles and online tools inviting further reading A valuable resource for students of journalism and science communication as well as professional journalists scientists and scientists in training who want to engage with the public or simply improve their journal papers This book is a one stop shop on science storytelling with a clear focus on providing practical techniques and advice on how to thrive as science writers and communicate science in all of its complexity ***The Utne Reader***, 1995
