The Routledge International Handbook of English

Language Education in Indonesia Subhan Zein, Fuad Abdul Hamied, 2025-10-29 This handbook is a landmark volume offering an unparalleled exploration of English language education in the world's largest archipelagic nation. Home to over 17 000 islands and more than 600 ethnolinguistic groups, Indonesia has an extraordinary linguistic and cultural diversity making up a unique context for English language education. With the growing prominence of Indonesia's superdiversity, this comprehensive resource on English language education in the country is timely. This handbook assembles cutting-edge research reviews from a diverse group of contributors, both Indonesian and international. It investigates key themes across six major areas: history and policy, curriculum and assessment, pedagogy, teacher education, English in the education system, and innovative approaches to the English language teaching and research. With perspectives ranging from historical and sociolinguistic to pedagogical and ideological, the chapters provide a multidimensional understanding of the complexities and opportunities shaping English language education in Indonesia. An essential resource for academics, policymakers, teachers, and students, this volume not only captures the dynamism of English education in Indonesia but also charts pathways for future scholarship, practice, and policymaking. It serves as a critical reference for anyone seeking to understand and contribute to the evolving landscape of English language education in the nation.

Adaptation and Challenges of Remote Teaching and Digital Tools Kagan, Kate, Schiaipacasse, Gabriela, 2025-11-13 With the rapid shift to remote teaching, educational technologies transform the landscape of education. As these technologies enable better access to education, they also present significant challenges. Greater access to learning across geographic sectors reshapes traditional teaching methods, allowing education systems to adapt to virtual environments. Remote teaching offers flexibility while raising concerns about student engagement and instructional quality. Navigating these issues requires technological proficiency and a deeper understanding of pedagogical adaptation. *Adaptation and Challenges of Remote Teaching and Digital Tools* explores the evolution of education through applications of digital, virtual, and intelligent technology. It examines how various tools and methodological innovations transform learning. Covering topics such as remote teaching, digital technology, and hybrid classrooms, this book is an excellent resource for educators, engineers, sociologists, academicians, and researchers.

Design Recommendations for Intelligent Tutoring Systems: Volume 11 - Professional Career Education Anne Sinatra, Art Graesser, Xiangen Hu, Lisa Townsend, Vasile Rus, 2023-09-01 The *Design Recommendations for Intelligent Tutoring Systems* series has covered many different topics over the past ten years. Those topics have ranged from general components of intelligent tutoring systems (ITSs): Learner Modeling, Instructional Management, Authoring Tools, Domain Modeling, to advanced elements: Assessment Methods, Team Tutoring, Self-Improving Systems, Data Visualization, Competency-Based Scenario Design. Our most recent previous volume included a series of Strengths, Weaknesses, Opportunities, and Threats (SWOT) Analyses on all the initial topics, as well as overviews of ITSs in general and the Generalized Intelligent Framework for Tutoring (GIFT) software. Sottolare et al. 2012, Sottolare et al. 2017, Goldberg Sinatra 2023. Each book in the

Design Recommendations for Intelligent Tutoring Systems series has been associated with an Expert Workshop on the same topic. These workshops are part of a cooperative agreement W911NF18 2 0039 between US Army Combat Capabilities Development Command DEVCOM Soldier Center and University of Memphis. One of the goals of the expert workshops is to learn more about ITS capabilities that are being developed and how these approaches as well as lessons learned could enhance the GIFT software. GIFT is freely available at <https://www.GIFTtutoring.org>. Invited experts in industry, academia, and government discuss the expert workshop topic, their applicable work, and suggestions for improving GIFT in what is usually a two-day event. Both the University of Memphis and GIFT Teams participate in the workshop, help to guide discussion, and ask questions that will provide insight into current challenges in GIFT. The expert workshop associated with this current book was held virtually in October 2022 and included presentations about both general approaches and specific applications to professional education in ITSs. Additionally, the University of Memphis team that participated in the workshop included Arthur C. Graesser, Xiangen Hu, Vasile Rus, and Jody Cockroft. The US Army DEVCOM Soldier Center team who participated in the workshop included Benjamin Goldberg, Gregory Goodwin, Anne M. Sinatra, Randall Spain, and Lisa N. Townsend. The current volume and the expert workshop that was associated with it branched out in a new direction and rather than addressing specific components of an ITS or types of features, approaches that could be included in ITSs, it focused on how to apply an ITS for specific types of training. The specific focus was on ITSs for Professional Career Education. This topic area was selected as in general ITS research tends to be focused on K-12 or college education and in many cases on domains such as algebra or physics. However, for the military and for industry trainees, they are adult learners and domains tend to be more active, applied, and experiential. This workshop provided an opportunity for discussion of specific examples of applied training that occurs with ITSs as well as discussion of general approaches and considerations for applied professional education in ITSs.
