Improve customer experience with chatbots Beata Stefanowicz, 2023-02-13 We have come a long way in the past 70 years since chatting to a computer was first mentioned A chatbot is a computer program that communicates with human users over text or through a speech to text system Businesses can use chatbots to communicate with their customers and recreate the in store shopping experience online Ecommerce companies can do this by Welcoming visitors to their online store Offering support within arm s reach Showing personalized deals Using proactive sales techniques Helping customers find the right products Upselling items and services Handling complaints on auto pilot Offering membership cards Collecting feedback from shoppers Offering multilingual support Many ecommerce brands are already taking advantage of chatbots to get ahead of their competitors Why not try them for yourself and see what this technology can do for your business

Increase sales and lead generation with AI and chatbots Krzysztof Wroblewski, 2023-07-10 To grow your ecommerce business you need to gain more clients And to achieve it you have to provide high quality customer

experience Sounds logical But the more visitors on your website the more questions your support agents have to handle And here is the challenge you need to face to successfully grow your store How to serve more clients answer more questions and maintain the highquality of support at the same time There are two ways The first is to constantly hire new support agents It probably will work but the cost you ll have to take for constantly recruiting and training new employees will be huge The second way is connected to technology that took the ecommerce industry and not only this one by a storm and will stay with us for a long time If not forever The AI
