Youth Development in India Sibnath Deb, Bishakha Majumdar, Aleena Maria Sunny, 2021-12-30 This book provides a comprehensive understanding of youth development and protection in the Indian context. It reviews the demographic and socio-economic background and future prospects of Indian youth. The book discusses the role of family and culture in the upbringing and development of youth, changing political and socio-economic situations, and the influence of parents and teachers in shaping the future of the youth. The book highlights the nature of adversities faced by children and youth and the subsequent impact on their mental health and well-being. It also examines the efficacy of various skill development programmes and national and international policies designed for the youth. The book will be of interest to students, teachers, and researchers of population sciences, population studies, psychology, childhood studies, development studies, sociology, and youth studies. It will also be of interest to policymakers and NGOs working with children and youth.

The Economics of Artificial Intelligence Ajay Agrawal, Joshua Gans, Avi Goldfarb, 2019-05-22 Advances in artificial intelligence (AI) highlight the potential of this technology to affect productivity, growth, inequality, market power, innovation, and employment. This volume seeks to set the agenda for economic research on the impact of AI. It covers four broad themes: AI as a general purpose technology, the relationships between AI, growth, jobs, and inequality, regulatory responses to changes brought on by AI, and the effects of AI on the way economic research is conducted. It explores the economic influence of machine learning, the branch of computational statistics that has driven much of the recent excitement around AI, as well as the economic impact of robotics and automation and the potential economic consequences of a still hypothetical artificial general intelligence. The volume provides frameworks for understanding the economic impact of AI and identifies a number of open research questions.

 ,1902 Young People and Uncertain Futures? James Goring, Peter Kelly, 2025-08-29 Drawing on Foucault's genealogical
 ethos and his work on power knowledge subjects this book analyses the ways in which neo liberal education apparatuses in
 Australia and other high income economies frame the problem of young people and uncertain futures The book critically
 examines the character of the presents and futures of education training and work and of the planet that have been produced
 in globalising neo liberal capitalism during the last four decades and which see in the development of young people's
 enterprise and aspiration the solutions to multiple crises and uncertainties It analyses how and why young people's
 behaviours and dispositions have been made knowable in these ways and the limits and possibilities that they produce for
 understanding what young people must be and become The book draws on post humanist feminist studies of techno science
 and futures studies to explore the promise of more socially just and sustainable futures for young people A thought provoking
 study for scholars and students of the sociology of education and of youth and society it will be invaluable for policymakers

 by John H Johnson it still maintains the highest global circulation of any African American focused magazine Survival:
One Health, One Planet, One Future George R. Lueddeke, 2018-09-17 Planet Earth has been here for over 4.5 billion years
 but in just two human generations we have managed to place our only home at great risk Many lessons from history have not
 yet been learned and new lessons may prove equally if not more difficult to take on board as we head deeper into the twenty
 first century This book highlights two of our greatest social problems changing the way we relate to the planet and to one
 another and confronting how we use technology dataism for the benefit of both humankind and the planet Covering a wide
 range of key topics including environmental degradation modern life capitalism robotics financing of war vs peace and the
 pressing need to re orient society towards a sustainable future the book contends that lifelong learning for sustainability is
 key to our survival The author argues that One Health recognising the fundamental interconnections between people animals
 plants the environment needs to inform the UN 2030 Sustainable Development Goals and that working towards the adoption
 of a new mindset is essential We need to replace our current view of limitless resources exploitation competition and conflict
 with one that respects the sanctity of life and strives towards well being for all shared prosperity and social stability Clearly
