Current Topics in Nonclinical Drug Development Philip Bentley, Pritam S. Sahota, Zbigniew Wojcinski, 2023-11-09

The second volume in the CURRENT TOPICS IN NONCLINICAL DRUG DEVELOPMENT SERIES explores the critical issues and current topics in nonclinical drug development. This second volume covers individual topics and strategies in drug development from compound characterization to drug registration. Written by a variety of experts in the field, recent and rapid advances in technologies and associated changes in regulatory guidance are discussed. Select topics include: Evolution of Artificial Intelligence (AI) technologies and the impact on toxicologic pathology; Current approaches to carcinogenicity testing; Predicting drug-drug interactions; Current understanding of idiosyncratic drug reactions; Assessing cardiovascular risks beyond QT interval; Use of 3D cell cultures in toxicology and ADME; Development of small molecule antibody complexes; Differentiating adverse from non-adverse findings in nonclinical studies. Current Topics in Nonclinical Drug Development Volume 2 will aid toxicologists, toxicologic pathologists, consultants, regulators, study directors, and nonclinical scientists dealing with day-to-day issues encountered in drug development and assist in formulating strategies for resolution of these issues. In addition, the book will be a valuable reference for academicians and graduate students pursuing research related to nonclinical drug development.

Leading Across Sectors: Australian Education Case Studies Peter O'Leary, 2025-01-27

Leading Across Sectors: Australian Education Case Studies offers a multifaceted exploration of leadership, governance, and community engagement within the Australian education landscape. Edited with scholarly rigor and practical insight, this collection presents a series of case studies inspired by real-world and AI-generated roles ranging from classroom leadership to executive governance. Each case offers scenarios of strategic decision-making, stakeholder collaboration, and policy implementation, emphasising how educational leaders can navigate the complexities of child safety, large-scale wellbeing, organisational change, and systemic reform. This work addresses the evolving demands of educational leadership by guiding readers through foundational and innovative practices in schools, government departments, TAFE networks, community programs, and corporate learning environments. Each case prompts reflection on how strategic vision, regulatory compliance, and resource management intersect with the human dimensions of empathy, equity, and professional growth. Readers are invited to examine both immediate operational considerations and broader systemic transformations, equipping them to handle the dynamic challenges posed by diverse education sectors. Beyond simply presenting problems, the case studies encourage the development of critical career skills and perspective-taking abilities. They are designed to foster creativity, analytical thinking, and adaptive leadership traits essential for professionals aspiring to advance their roles in education or transition into related fields. By systematically portraying ethical dilemmas, policy constraints, and collaborative decision-making, the book serves as a framework for reflective practice, enabling its audience to engage thoughtfully with both familiar and emerging roles in Australian education. This compilation will be of particular interest to middle leaders, principals, policy

officers project managers higher education professionals and corporate learning specialists offering each reader clear insights into the interplay between leadership theory and day to day realities Career coaches and HR professionals may likewise find it a valuable resource in understanding the cross sector needs of educational workplaces as well as in guiding individuals toward roles that align with their expertise and aspirations Throughout the editor maintains a commitment to ethical content creation openly acknowledging the use of AI as a tool for generating selected case studies The final text retains human driven structure and interpretation ensuring that the overarching narrative remains coherent and firmly grounded in the real experiences and emerging challenges of Australian educational contexts *Leading Across Sectors Australian Education Case Studies* stands as both a scholarly resource and a practical guide illuminating the spectrum of leadership positions within Australia s diverse education system By blending intellectual depth with realistic portrayals of workplace scenarios it invites educators policymakers and organisational leaders to broaden their career horizons refine their strategic vision and cultivate the nuanced thinking requisite for meaningful long term impact *Monthly Catalogue, United States Public Documents* ,1995-02 *Monthly Catalog of United States Government Publications* ,1995

Algorithms of Armageddon George Galdorisi,Sam J Tangredi,2024-03-12 It is unclear if U S policy makers and military leaders fully realize that we have already been thrust into an artificial intelligence AI race with authoritarian powers Today the United States peer adversaries China and Russia have made clear their intentions to make major investments in AI and insert this technology into their military systems sensors and weapons Their goal is to gain an asymmetric advantage over the U S military The implications for our national security are many and complex *Algorithms of Armageddon* examines this most pressing security issue in a clear insightful delivery by two experts Authors George Galdorisi and Sam J Tangredi are national security professionals who deal with AI on a day to day basis in their work in both the technical and policy arenas Opening chapters explain the fundamentals of what constitutes big data machine learning and artificial intelligence They investigate the convergence of AI with other technologies and how these systems will interact with humans Critical to the issue is the manner by which AI is being developed and utilized by Russia and China The central chapters of the work address the weaponizing of AI through interaction with other technologies man machine teaming and autonomous weapons systems The authors cover in depth debates surrounding the AI genie out of the bottle controversy AI arms races and the resulting impact on policy and the laws of war Given that global powers are leading large scale development of AI it is likely that use of this technology will be global in extent Will AI enabled military weapons systems lead to full scale global war Can such a conflict be avoided The later chapters of the work explore these questions point to the possibility of humans failing to control military AI applications and conclude that the dangers for the United States are real Neither a protest against AI nor a speculative work on how AI could replace humans *Algorithms of Armageddon* provides a time critical understanding of why AI is being implemented through state weaponization the realities for the global power balance and more importantly U S
