areas stabilizing and strengthening residential communities eliminating industrial age blight and providing quality public education options This new edition will be of great use to planning housing and community development professionals both regionally and nationally as well as to students on Urban Politics and Planning courses      **Equal Partners?** Jaclyn S Wong, 2023-04-18 Many young professionals seek egalitarian partnerships in which both partners work for pay and share unpaid housework and childcare Yet working couples realities often deviate from this ideal with women trading off employment for family care Will contemporary young adults repeat this pattern or will they come closer to achieving equality in work and family Equal Partners seeks to explore this question Drawing on six years of interviews with the partners in twenty one different gender couples Jaclyn S Wong documents how supportive workplaces partners steadfast gender egalitarian attitudes and partners jointly coordinated actions all need to come together for couples to experience gender equality in work and family This book offers a compelling study of the dynamics of couples in ambitious partnerships who aspire to equality as they navigate the external pressures that come with life planning      *Mississippi Educational Advance ...*, 1914      *COVID-19* Sunita Ahuja, 2025-01-03 The illustrations in this book are created by Team Educohack COVID 19 The Unseen Collateral Impacts delves into the profound economic and personal upheavals caused by the pandemic This book examines how COVID 19 reshaped the world s fundamental structures affecting health IT education markets and more The pandemic has set back global development by years altering our concept of normalcy We explore the extensive financial and personal damage caused by the virus highlighting the lessons learned and the strategies employed globally to overcome these challenges This book is a comprehensive account of the pandemic s collateral damage providing insights into the resilience and unity required to navigate such crises As we transition to a post pandemic world this book underscores that although recovery may take time humanity will emerge stronger COVID 19 The Unseen Collateral Impacts is an essential read for understanding the pandemic s far reaching effects and the path to global rehabilitation      **Applications of 5G and Beyond in Smart Cities** Ambar Bajpai, Arun Balodi, 2023-05-29 This book explores the potential of 5G technologies and beyond in smart city setups with the availability of high bandwidths and performance and low latency The book starts with an introduction to 5G along with the challenges limitations and research areas in future wireless communication including the related requirements for transformation of societal paradigms and infrastructure Applications related to visible light communication network management in smart cities the role of 5G in public healthcare safety security and transportation and existing and planned 6G research frameworks are included The features of the book include A broad perspective on 5G communications with a focus on smart cities Discussion of artificial intelligence in future wireless communication and its applications A systemic and comprehensive coverage of 6G technologies challenges and uses The role of future wireless communications in safety health and transport in smart cities Case studies of future wireless communication This book is aimed at researchers and professionals in communications signal processing cyber physical systems and smart cities      *The*
