The Journalist's Toolbox Mike Reilly, 2024-01-05 Focusing on the how and why of digital reporting, this interactive textbook equips readers with all the skills they need to succeed in today's multimedia reporting landscape. The Journalist's Toolbox is an extension of the JournalistsToolbox.ai website which provides links to tools organized by beats and topics, as well as social channels, a newsletter, and more than 95 training videos relevant to journalists. This handbook offers a deep dive into these digital resources, explaining how they can be manipulated to build multimedia stories online and in broadcast. It covers all the basics of data journalism, fact checking, using social media, editing, and ethics, as well as video, photo, and audio production, and storytelling. The book considers digital journalism from a global perspective, including examples and interviews with journalists from around the world. Packed full of hands-on exercises and insider tips, The Journalist's Toolbox is an essential companion for students of online digital journalism, multimedia, storytelling, and advanced reporting. This book will also make an ideal reference for practicing journalists looking to hone their craft. This book is supported by training videos, interactive charts, and a pop-up glossary of key terms, which are available as part of an interactive e-book or online for those using the print book.

Language Learning Eric Friginal, Wing Yee Jenifer Ho, 2025-12-22 Technology and Language Learning: Effective Podcasting and Video-Based Language Teaching Practices in the Age of Generative AI provides English language teachers with a practical guide to integrating podcasting, video-based materials, and Generative AI (GenAI) technologies into their classrooms. Focused on ESL, EFL, and ELT, the book demonstrates how these tools enhance engagement, accessibility, and autonomy while fostering skills like listening comprehension, vocabulary development, and creative language use. Teachers will find strategies for using podcasts in flipped classrooms, designing authentic video activities, and guiding students in creating multimodal content. The book highlights GenAI tools like ElevenLabs, Canva, and Synthesia for generating adaptive, accessible materials tailored to diverse learners. Addressing challenges and opportunities, it emphasizes balancing AI-generated content with authentic language practice. Real-world examples and case studies illustrate practical applications in culturally sensitive and inclusive ways. Whether in traditional, hybrid, or online settings, it offers actionable guidance for leveraging digital tools as transformative components of modern pedagogy, preparing students to thrive in a GenAI-driven, globally connected world. By bridging research and practice, this textbook empowers teachers and practitioners to reimagine classrooms as dynamic spaces where technology supports creativity, collaboration, and critical thinking. *Hacking Neuroplasticity* Joyce

Shaffer, 2024-11-29 Neuroplasticity is the ability of neural networks in the brain to change through growth and reorganization. It is when the brain is rewired to function in some way that differs from how it previously functioned. How does aging affect neuroplasticity? As we grow older, plasticity decreases to stabilize what we have already learned. What influence does the aging process have on memory? Forgetfulness can be a normal part of aging. As people get older, changes occur in all parts of the body, including the brain. As a result, some people may notice that it takes longer to learn new things, they don't remember information as well as they did, or they lose things like their glasses. This book on evolving neuroscience is unique in its lifespan focus on driving neuroplasticity in a positive direction to influence the Flynn effect of increasing

human intelligence as the preferred way to prevent delay onset and or reverse dementia It considers potential impact from the first moments of life through end of life It includes intergenerational activities Its inclusion of centenarians and supercentenarians provides examples of Super Agers who have maintained and or increased neurocognitive capacity often with a health span that approximated their vigorous longevity It discusses the use of the Artificial Intelligence AI revolution to refine personalize and broaden our global reach to enhance the Flynn effect as the preferred effort to improve global statistics on neurocognitive functioning at any age Driving neuroplasticity in a positive direction at all ages is urgent With this book s focus on evidence based interventions at any age which can have physical emotional neurobiological neurochemical immunological and social health benefits it is a unique overview and application of evolving neuroscience to address the UN WHO Decade of Action for Healthy Ageing for All
