the Preface there's so much to get excited about. It demonstrates with refreshing transparency and honesty how much love and care went into the reinvention of an already outstanding Java book by bringing it into a new frontier of what it means to be a programmer in today's world. Bravo! Your Preface statement GenAI has created an ultra high level programming capability that will leverage your Java learning experience and ability to produce robust top quality Java software quickly, conveniently and economically is a great conclusion to the Preface. The intro really helps justify the use of GenAI. Brian Canada, Professor of Computational Science, University of South Carolina Beaufort. After reading your whole book, it was fun to read the Preface that wraps everything up at a high level. You have done some amazing work here, and I'm glad to have been a small part of it as a reviewer. I especially appreciate how difficult it must have been to make sure everything was as up to date as possible with the speed at which things change in this field and the deftness with which you incorporated all the focus on GenAI and data science that's in this book. Emily Navarro, Ph.D., Continuing Lecturer, Department of Informatics, University of California Irvine. The generative AI exercises are awesome and reflect the way modern developers work. They are fun and let the reader explore and learn about AI by using AI. How meta! This allows readers to expand their knowledge and get a feel for the AI's code-related capabilities. Jeanne Boyarsky, CodeRanch Java Champion. Register your book for convenient access to downloads, updates, and/or corrections as they become available. See inside book for details. Technology and Language Learning Eric Friginal, Wing Yee Jenifer Ho, 2025-12-22. *Technology and Language Learning: Effective Podcasting and Video Based Language Teaching Practices in the Age of Generative AI* provides English language teachers with a practical guide to integrating podcasting, video-based materials, and Generative AI/GenAI technologies into their classrooms. Focused on ESL, EFL, and ELT, the book demonstrates how these tools enhance engagement, accessibility, and autonomy while fostering skills like listening comprehension, vocabulary development, and creative language use. Teachers will find strategies for using podcasts in flipped classrooms, designing authentic video activities, and guiding students in creating multimodal content. The book highlights GenAI tools like ElevenLabs, Canva, and Synthesia for generating adaptive, accessible materials tailored to diverse learners. Addressing challenges and opportunities, it emphasizes balancing AI-generated content with authentic language practice. Real-world examples and case studies illustrate practical applications in culturally sensitive and inclusive ways. Whether in traditional, hybrid, or online settings, it offers actionable guidance for leveraging digital tools as transformative components of modern pedagogy, preparing students to thrive in a GenAI-driven, globally connected world. By bridging research and practice, this textbook empowers teachers and practitioners to reimagine classrooms as dynamic spaces where technology supports creativity, collaboration, and critical thinking.
