Artificial Intelligence, Pedagogy and Academic Integrity Alyson E. King, 2025-07-01 This book addresses the implications of artificial intelligence for teaching learning and academic integrity in higher education It explores policies about the use of Generative Artificial Intelligence GenAI describes how to teach writing in the era of GenAI and how instructors can design courses and assessments that prevent plagiarism while building the necessary skills for critical thinking and writing Together the chapters include research results case studies teaching methodologies course design ideas analysis of power and gatekeeping and best practices related to GAI from a diverse range of researchers from English and French Canada the United States England Ukraine and Croatia The authors approach the advent and rapid spread of GenAI in higher education by examining its use from different perspectives with a particular focus on its impact on academic integrity Taking a communication studies approach consideration is given to the role GenAI might play disrupting power structures in universities to improve access for students who are non traditional or English Language Learners The book also explores how reimagining teaching methodologies can help to

mitigate academic integrity violations due to misuse of GenAI and to teach students to use GenAI with integrity as a research and brainstorming tool Students need to learn how to assess the reliability of GenAI's output as they develop the skills for research and writing Methods of teaching writing and research skills using GenAI are explored in an effort to ensure that critical thinking skills are developed successfully Most instructors who use writing intensive assessments believe that essential critical thinking skills are developed via the writing process often ideas become concrete as one writes about them Teaching with GenAI can provide opportunities for instructors to guide their students into a deeper analysis and critique of their research

Impact of Emergent Technologies on Writing Centers and Pedagogy Wang, Tingjia, 2025-05-08 Emergent technologies reshape the landscape of writing centers and pedagogical practices in higher education From AI driven writing tools to collaborative platforms and digital feedback systems these innovations transform how writing support is delivered accessed and understood Writing centers are no longer confined to physical spaces instead they evolve into hybrid or fully online environments that accommodate diverse learner needs and preferences Pedagogically instructors and tutors rethink traditional approaches integrating digital literacy multimodal composition and ethical engagement with technology into their curricula As a result emergent technologies enhance accessibility and efficiency while challenging educators to critically examine the role of technology in writing instruction and the student learning experience *Impact of Emergent Technologies on Writing Centers and Pedagogy* explores the impact of emergent technologies on writing centers and writing pedagogy in higher education worldwide It examines the themes concerns and challenges emerging from different writing centers and their culturally and linguistically diverse responses towards the latest transformations in writing pedagogy This book covers topics such as digital literacy policymaking and writing programs and is a useful resource for educators computer engineers academicians researchers and scientists
