Advanced Hybrid Work Schedule Ideas For Moms:

Leading Inclusive Workplaces Through Digital Transformation and Organizational Change Achour, Zyed, 2025-06-30 In today's business landscape organizations must adapt to technological advancements while ensuring these changes foster inclusivity and equity Leading inclusive workplaces through digital transformation and organizational change requires a strategic and human centered approach that aligns innovation with diversity equity and inclusion DEI goals As digital tools reshape work communication and decision making leaders play a critical role in guiding their teams through change while integrating inclusive practices into new systems and structures This intersection of digital transformation and organizational change presents an opportunity to create workplaces that are more adaptive collaborative and inclusive for all employees Leading Inclusive Workplaces Through Digital Transformation and Organizational Change examines inclusive and accessible business practices using intelligent technologies It explores strategies for improved employee health and well being retention and recruitment This book covers topics such as labor dynamics artificial intelligence and agile leadership and is a useful resource for business owners engineers managers academicians researchers and data scientists

Promoting Gender Equality and Tackling Demographic Challenges Jiajia Gu, Ms. Lisa L Kolovich, Dr. Jorge Mondragon, Ms. Monique Newiak, Michael Herrmann, 2024-06-11 Two broad contrasting demographic trends present challenges for economies globally countries with aging populations often advanced economies and increasingly emerging markets anticipate a significant shrinking of the labor force with implications for growth economic stability and public finances Economies with rapidly growing populations as is the case in many low income and developing countries will face a burgeoning young population entering the labor market in the next decades a large potential to reap the demographic dividend if the right skills and economic and social conditions are in place This note highlights how gender equality in both cases can serve as a stabilizing factor to rebalance demographic trends As decisions regarding fertility human capital investment and labor force participation are interlinked policies should aim at relaxing households time and resource constraints that condition these choices This means that in general in advanced economies and emerging markets policies should facilitate women's work life choices and boost female participation in the labor market whereas policies in low income and developing countries should focus on reforms that narrow gender gaps in opportunities and support human capital accumulation

Software Engineering and Advanced Applications Davide Taibi, Darja Smite, 2025-09-09 This three volume set constitutes the refereed proceedings of the 51st Euromicro Conference on Software Engineering and Advanced Applications SEAA 2025 held in Salerno Italy during September 10-12 2025 The 62 full papers were carefully reviewed and selected from 177 submissions These papers were organized in the following topical sections Part I Data and AI Driven Engineering Cyber Physical Systems Model Driven Engineering and Modeling Languages Part II Practical Aspects of Software Engineering Systematic Literature Reviews and Mapping Studies in Software Engineering Part III Software
