Parenting is a complex and multifaceted task that requires a deep understanding of child development, psychology, and human behavior. It involves not only providing for a child's basic needs but also fostering their emotional, social, and intellectual growth. Parenting challenges evolve as their child goes through the phases from being a newborn to toddler to going to school and then the most interesting and challenging time, the teenage phase. Parenting teenagers is not for the faint of heart. It requires patience, understanding, and an unwavering commitment to guiding and supporting your child through this tumultuous time. Teenagers are navigating their way through a complex world, facing new challenges and pressures that can be overwhelming at times. In this book, the author takes the reader on a quick crash course on various challenges and areas of friction between parents and their teenage children. Author also makes references to various NLP techniques that parents can apply to help navigate
