Eleven participants in the Dutch Werkplaats Typografie's design program recently asked an equal number of more accomplished graphic designers to join forces with them in collaborations destined for France's Chaumont Graphic Arts Festival. Dutch Resource reports on that collaboration. Each of the 11 different pairs showcases both designers working methods and the innovative experimental aesthetic that unites them. The book as a whole offers a clear overview of the uncompromising practice of today's graphic designer: a specialist and jack of all trades who is not only master of his or her own work but often works as a writer, researcher, editor, curator, critic, and photographer as well. *Superstructure* Mark Power, 2000. Mark Power is a photographer who has had exclusive unfettered access to all areas of the Greenwich millennium site since 1997 when it was merely a derelict polluted building site. Since then virtually day by day he has captured the creation of the Dome and its contents on film. His pictures are astonishingly powerful; they are certainly the most coherent complete vision of the Dome by an individual photographer. Having visited the Dome well over a hundred times, Mark Power has truly managed to convey the spirit of the place.
