change body weight In the focus groups discussions the adolescents suggested modifications on the prototype of the mobile app we presented and indicated possibility to regularly take pictures of foods and beverages during meal time Conclusion We did not find an app available in either the Ghana or Vietnam markets that could improve dietary quality of adolescents without focusing on weight Most apps available only had manual features to log food intake which is time consuming Moreover adolescents expressed interest in using a new modified version of the app we presented We aim at developing a new mobile phone application based on AI technology that gives personalized and reliable nutrition advice to improve adolescent girls diets However the literature review was not conclusive on what should be the characteristics of an app and how interventions to measure an app s impact on dietary quality should be conducted   *Technology-mediated Learning During the Pandemic* Jitendra Singh,Vikas Kumar,2024-06-21 This volume discusses the emergence of information and communication technology ICT based teaching and learning during the Covid 19 pandemic as a potential alternative to traditional classroom based learning It presents a collection of theories practices and case studies from across the globe and covers different aspects of education from a multidisciplinary perspective While focusing on the various opportunities that surfaced while carrying out innovative experiments in the online learning space the book discusses pedagogical challenges and the need for a shift in teaching pedagogy towards online learning It outlines the existing learning theories reasons behind their failure and new theories that emerged to fill the need for new methods for delivery of content and pedagogy The book discusses the issues faced by stakeholders including institute administrators students and teachers to prepare for this new method of teaching and learning It highlights the role of virtual laboratories in supplementing the needs of students in the remote learning environment The book also discusses the role and impact of social media as a powerful tool of learning and educational communication This book will be of interest to teachers students and researchers of education higher education digital education information technology educational psychology and media studies It will also be useful for courses on e learning educationalists policymakers educational institutions online education centres and practitioners working in the related areas   **Daily Graphic** Elvis Aryeh,2002-05-16   Computerworld ,2004-05-31 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network   **MBA Programs** ,2001   PC AI. ,1997   *Microsoft FrontPage 98* Gene Weisskopf,1997 Here is a straightforward skills based guide to using FrontPage efficiently By not getting bogged down in theory this book puts the reader in the driver s seat Like other books in the No Experience Required series readers will learn effective Web creation techniques through hands on experience and scores of real world examples   **Willing's press guide** James Willing,2004   *Leading Lawyers* ,2006   **AsiaLaw Leading Lawyers** ,2006   Business World ,2003   Broadcasting & Cable ,2000-01-17   Embedded Systems Design ,2006   *Black Enterprise*
