infrastructure and near boundless access to the cultural items that enrich our lives Amid this bounty will also be wrenching change Professions of all kinds from lawyers to truck drivers will be forever upended Companies will be forced to transform or die Recent economic indicators reflect this shift fewer people are working and wages are falling even as productivity and profits soar Drawing on years of research and up to the minute trends Brynjolfsson and McAfee identify the best strategies for survival and offer a new path to prosperity These include revamping education so that it prepares people for the next economy instead of the last one designing new collaborations that pair brute processing power with human ingenuity and embracing policies that make sense in a radically transformed landscape A fundamentally optimistic book The Second Machine Age alters how we think about issues of technological societal and economic progress *Mother Jones Magazine*

Mazzucato,2024-02-06 Award winning economist Mariana Mazzucato s famously incisive international bestseller debunking the pervasive myth of the inept state versus an innovative private sector with a new preface by the author According to conventional wisdom innovation is best left to the bold entrepreneurs of the private sector and government should get out of the way But what if that wasn t case What if from the inventions of Silicon Valley to medical breakthroughs the public sector has actually been the most courageous and valuable risk taker of all Critically acclaimed and influential thinker and scholar Mariana Mazzucato argues comprehensively against the myth of a lumbering bureaucratic state versus a dynamic innovative private sector with remarkable original and deep research In a series of case studies from nanotechnology to the emerging green tech of today Mazzucato reveals that the opposite is true the private sector only finds the courage to invest after an entrepreneurial state has made the high risk investments The Entrepreneurial State reveals how every technology that makes the iPhone so smart was actually funded by the government from the Internet and GPS technology to touch screen displays and voice activated Siri In the history of modern capitalism the State has not only fixed market failures but has also actively shaped and created markets In doing so it sometimes wins and sometimes fails Yet by not admitting the State s role in active risk taking we ve created an innovation system where the public sector socializes risks while privatizing reward as Mazzucato controversially argues This bold and provocative book considers how we adopted this dysfunctional dynamic and then how we can overcome it so that economic growth can be not only smart but inclusive as well *U.S. News & World Report* ,1947
