**Social Media Influencers in Strategic Communication** Nils S. Borchers, 2021-12-21 This book seeks to draw a comprehensive picture of influencer collaborations from a strategic communication perspective The contributors tackle strategic influencer communication from multidisciplinary perspectives from varying actor foci and from different methodological frameworks and methods Influencers cross traditional boundaries in many ways and oscillate between intimacy and publicity authenticity and commercialization ingratiation and critical distance From a strategic communication perspective this variability makes influencers hard to capture organizations can cooperate with influencers to achieve both marketing and PR objectives Influencers can act as cooperation partners integrating commercial content into organic narratives or as independent critics Influencers also combine different roles that have traditionally been occupied by separate actors such as intermediary content distributor creative content producer community manager testimonial strategic counsellor and event host The combination of these roles in just one actor opens new opportunities for strategic communication and can produce appreciated synergy effects It is therefore hardly surprising that influencer collaborations have become a firmly established instrument in the toolbox of strategic communicators The chapters in this book were originally published in the International Journal of Advertising and the International Journal of Strategic Communication

**Consumer Behaviour and Social Network Sites** Sarah Zaraket, 2020-12-23 This book provides a solid understanding of electronic word of mouth eWOM by taking the reader through the process of information diffusion from rumour generation in times of traditional word of mouth WOM to negative social eWOM and examining how consumers process it Consumer Behaviour and Social Network Sites tackles different themes relating to negative eWOM Drawing on both intensive scientific research and professional examples it bridges the gap between the academic and professional worlds The book contrasts negative social eWOM to traditional WOM while discussing the specificities of different social networking sites in diffusing such information It looks at why and how consumers decide to create share and react to negative social eWOM suggesting that there are more reasons than are commonly presumed for consumers to articulate themselves on these platforms It also provides an appreciation of web users behaviours with regards to negative social eWOM and how it can alter their decision making journey The book concludes with several strategies and key takeaways to deal with and prevent negative social eWOM Most books on WOM are purely professional and lack the theoretical contextualization of the issue Moreover they often provide insights on brand to consumer conversation but not consumer to consumer C2C communication This short book provides marketing academics students and practitioners with an important insight into these C2C communications that can potentially be harmful to brands

**Personal Branding** Matt Golden,2019-11-03 This book is for anyone ready to master the art of personal branding using social media and the many benefits that social media has to offer If you are ready to dominate in the online space this year then read on      *Instagram Secrets* Alexander Vinci,2021-09-04 Do you want to know how Instagram really works and what mindset you must have to succeed in this platform If you just starting reading through this guide and are thinking that your business isn t an eCommerce business and so Instagram isn t the place for you think again Remember the key proposition

that Instagram brings is visualization Consider these examples 1 You're a real estate agent and want to highlight the newest mountain home that you have on the market 2 You are a world class hospital that just released a new mother's ward with beautiful birthing and stay suites with a spa like feel 3 You're a restaurant owner and want to highlight your savory and mouthwatering specials each week The above examples are all situations where nothing is actually being transacted online but the business is building brand awareness and drumming up interest so that the consumer will visit their website or pick up the phone to learn more The mysterious Instagram algorithm While we'll never know exactly how Instagram has weighted the various data points that they put into their algorithm we do know that Instagram's back end technology now focuses on relevancy serving up the posts that are most likely to relate to certain users based on their activity on the site So every time a user clicks through a post or spends a certain amount of time looking at a certain influencer Instagram is capturing that data in some way and building it into their engine to ensure that posts that users won't care about are less likely to show up in their feed We do know however that Instagram is looking at the following Timely content This is all about recency meaning if a user hasn't logged in for a while they won't have to scroll through outdated and no longer relevant posts They'll be shown timely content that matters to them Interest This is really the secret sauce as Instagram is paying attention and will serve content that it believes the user will be interested in Relationships Instagram knows what photos users tag and where they comment So if a user has interacted in some way with certain brands in the past they are far more likely to be served content from that brand or similar brands in the future For marketers this is a great thing It means that as Instagram learns more about your brand your posts and advertisements are more likely to get in front of your niche or target audience A few notes about Instagram Shopping With the release of Instagram Shopping in late 2016 Instagram literally turned their platform into an online marketplace While it is still a common practice to include website links to your business site and even to a product page now it is possible to allow the customer to transact directly on the Instagram platform For businesses that want to enable the Shopping capability they need to meet the following requirements You must have an Instagram business profile That business profile needs to be connected to a Facebook catalog Your company's registered headquarters location must be located in one of the Instagram approved countries Items for sale must be physical goods that comply with the trading guideline and terms of use set forth by Instagram As this Instagram Marketing Guide is intended as a resource for those getting started with Instagram marketing we will not be providing a deep dive of the Instagram Shopping capability Here is a Preview of What You Will Get A Full Book Summary An Analysis Fun quizzes Quiz Answers Etc Get a copy of this summary and learn about the book **Instagram Influencer and Advertising** Joan Smith, 2020-03-12 LISTEN UP Instagram is one of the hottest places to grow your personal brand right now and for a good reason The platform boasts over 1 billion monthly active users making it a giant in the online space Anyone how is looking to grow a personal brand online needs to be plugged into this giant if they want to maximize their potential and grow their profits If you are someone who has already been
