Are you worried you aren't advancing fast enough in your career? Concerned that you might be leaving money on the table? Are you stuck in a boring unrewarding job? Or would you prefer Job Opportunities and Business Leads that come to YOU offering to Employ YOU or pay YOU money by learning to write your own LinkedIn profile that attracts the correct people directly to your inbox? I have been where you are today. I worked in unsatisfying jobs for employers that didn't care and wouldn't reward good and competent service. I remained in positions for years sending out thousands of resumes hoping that someone would recognize my value. What pulled me through was lots of study, specialized training and practice. More importantly, I believed in myself and the value I could provide to employers and customers for my products and services. At first, I was happy to find a new client now and then to make some extra money. Later, I discovered how to promote myself effectively and those customers started coming to me. Instead of wasting time day after day fruitlessly searching, they sent me emails asking demanding my services, products and employment. Here is what you'll learn inside Focus on LinkedIn.

Understand the unique importance of LinkedIn. You have found one of the best ways to get employers and clients to come to you. Best of all, they'll be pre-qualified leads for the most part, which means they are ready to hire or buy your products and services. Increase your qualified leads by targeting your LinkedIn to the right audience. Decrease the time you spend fruitlessly searching for anyone who will buy your products or services or offer you a position in their company. Explode the size of your professional network by spending as little as a few hours optimizing your professional brand on LinkedIn. Define your Personal Brand and deliver an effective message which effectively grows a Professional Network which looks to you for answers. Increase your business or job offers several times the current level. Increase your earnings while reducing the time you spend with unqualified leads and employers. Taking the Time to Create an Optimized Profile Works. Spending the time to Optimize your Profile really works. Originally, my profile was boring and not well targeted. Because of this, I didn't get any value from LinkedIn. That all changed after I spent the time to go through each section adding, editing and removing until I had a great profile. Within a week, I received an email out of the blue for a ghostwriting project. Richard, I'm looking for a ghost writer with some business and/or IT background. Your profile stood out to me. He was pre-sold on my services and we quickly signed a contract and not a small one to write his new book. Over the following year, by putting the concepts in this book to work, I received dozens of similar queries and over 50% of them resulted in signed contracts for paying jobs.

A BRAND New You Austin E. Thompson, Jr., MBA, MPM, 2010-02-19 I took personal pride in composing this book on personal branding with a purpose of reaching entrepreneurs who are interested in enhancing their personal self image in parallel with the image of their businesses for working professionals who are on the fast track up the corporate ladder and may wish to gain an edge on the competition and for college students who are preparing for a professional life after their academic journey Personal branding is not new but has become increasingly important for many professionals in recent years who seek a competitive advantage over their counterparts to stand out and be noticed among a plethora of talented candidates This is even more imperative now than a few years ago as we are faced with 10% national unemployment with over 7 million workers laid off since the recession began back in December 2007 In some U S cities unemployment is over

50% with the unemployment rate in some states exceeding the national rate With so many professionals out of work fighting to get re employed in a job and career commensurate with their skills and education the task has become increasingly challenging leaving many unemployed individuals hopeless while confronted with life changing decisions Trying to stand out and be recognized in a dense pool of qualified candidates is not as easy as it may have been in the past with companies directing millions of candidates to their websites on which to post resumes and create lengthy and time intensive profiles The job search has become a faceless and mundane process with very little success and with increased frustration to many who continue to sink into an abyss of debt and personal despair With this situation looming those out of work professionals will have to think outside the box on how to get noticed be recognized and make a positive impression on recruiters and hiring managers constantly searching for suitable talent Candidates will have to market and promote themselves as a BRAND a successful personal image that translates quality success integrity impressiveness reliability and bringing value to the company of their interest Personal branding will ensure that companies identify you with the strength and true worth in what they look for when considering candidates For those who are fortunate to still be employed personal branding is just as important to achieving success in the work place Companies are constantly looking for ways to trim the fat and become lean in their operations Hence operational efficiency is their ultimate goal Akin to this effort of process improvement is doing more with less which often influences the elimination of human labor This occurs when companies experience a reduction in profits have less retained earnings to expand operations and invest in growing the business and realizing diminishing returned value to their shareholders Oftentimes workers must be let go if they are determined to be part of non producing or non revenue generating functions of the organization or if they themselves are perceived to be adding little value to the organization If a company believes it can do without you it will let you go in a layoff or downsizing It is not a personal matter but a business decision that companies large or small are confronted with on a constant basis It is all about the bottom line and keeping the doors open Working professionals have to determine how they are identified by their companies How strong is your personal BRAND and how valuable are you to your employer What differentiates you from your peers that make you stand out What type of impression are you making on your company Are there any weaknesses that you have to strengthen These are some of the questions that you must honestly ask yourself and answer Performing an honest assessment on your personal BRAND will capture the things that make you valuable to your employer while at the
