Public Policy for Academic Quality David D. Dill, Maarja Beerkens, 2010-04-12 Over the last decade the structure of higher education in most countries has undergone significant change brought about by social demands for expanded access technological developments and market forces In this period of change the traditional concerns with access and cost have been supplemented by a new concern with academic quality As a consequence new public policies on academic quality and new forms of academic quality assurance have rapidly emerged and swiftly migrated across continents and around the globe The growing public debate about academic quality assurance within and across countries however has not always been well informed by analyses of the strengths and weaknesses of these new policy instruments The Public Policy for Academic Quality Research Program PPAQ was designed to provide systematic analyses of innovative external quality assurance policies around the world This volume presents the fourteen analyses of national policies on academic quality assurance conducted as part of the PPAQ Research Program utilizing the knowledge of informed international scholars Each policy analysis examines the policy goals implementation problems and impacts of these newly developed national quality assurance instruments The book concludes with an assessment of the lessons learned from these collected policy analyses and outlines the framework conditions that appear essential for assuring academic standards in the university sector Soulware Way Kuo, 2019-04-24 This book is a critical account of the history evolution and challenges of higher education in mainland China Taiwan and Hong Kong with important reflections on other systems notably those in the US UK Korea and Japan In addition to hardware and software it introduces the concept of Soulware in global higher education and analyses its importance for internationalization and the pursuit of excellence In an age where robots and artificial intelligence are impacting our jobs and our daily lives its critical analysis and insightful reflections provide considerable value for a range of global stakeholders interested in higher education reform to nurture talent and promote innovation to prepare students for an unpredictable future Professor Kuo s perspective provides considerable value for a range of global stakeholders both in the east and the west As American universities awake to the realization that the demand for higher education is an increasingly global phenomena his contribution could not be more timely Mike Crow PhD President Arizona State University Way Kuo advances a powerful historical argument for the means to achieve excellence in Asian universities His recipe is bold leadership combining excellence in teaching and research and embracing the lessons of western university successes and failures A superb combination of history and forward thinking Michael Kotlikoff VMD PhD Provost Cornell University Way s book is not just about the past or the present Rather it offers useful insights into the future In an age where robots and artificial intelligence are impacting our jobs and our daily lives he introduces the concept of soulware and analyzes its importance for higher education G P Bud Peterson PhD President Georgia Institute of Technology Differing from their Western counterparts Chinese universities will demonstrate their own cultural characteristics In this regard Professor Kuo s book offers us many

valuable insights Yong Qiu PhD President Tsinghua University Beijing Wisdom is the ultimate goal of higher education It is the illumination of that wisdom among audiences English speaking or Chinese speaking to which Way Kuo's book hopes to kindle a spark Frank H Shu PhD President 2002-06 National Tsing Hua University Hsinchu and University Professor Emeritus University of California Berkeley and San Diego *Cooperative and Work-Integrated Education in Asia* Yasushi Tanaka, Karsten Zegwaard, 2018-09-28 It has been over a century since Cooperative System of Education a work study programme for higher education was initiated by Herman Schneider at University of Cincinnati in the United States Today it is known as Cooperative Education which is commonly included within the umbrella term of Work Integrated Learning and broadly referred to by the World Association of Cooperative Education WACE as Cooperative and Work Integrated Education CWIE Its development worldwide has been closely related to the socioeconomic background of the region This book offers the first attempt to focus on the development of CWIE in Asia To date the development of CWIE in the Asia region has been slow compared to their counterparts The analysis follows international comparisons of China Japan Korea Hong Kong Vietnam Thailand Malaysia and Singapore on their educational history vocational education CWIE and future issues Although the level of development varies among them there is no doubt that this region as a whole is experiencing a rapidly growing global demographic and economic prominence CWIE can and to some extent already does play an important supportive role as part of growth The book goes on to conclude that in order to enable further successful expansion of CWIE and improve its best practice it is imperative to establish national and regional associations for CWIE as well as establish collaborative research activities across the region with governmental funding support **Chinese Higher Education Reform and Social Justice** Bin Wu, W. John Morgan, 2015-06-26 In place of a distributive justice perspective which focuses simply on equal access to universities this book presents a broader understanding of the relationship between Chinese higher education and economic and social change The necessity for research on the place of universities in contemporary Chinese society may be seen from current debates about and policy towards issues of educational inequality at Chinese universities Many questions arise as a consequence What are the limitations of neo liberalism in higher education policy and what are the alternatives How has the Chinese government met the challenges of educational inequality and what lessons may be learned from its recent initiatives How may higher education enhance social justice in Chinese society given economic social and cultural inequality What may be learned from the experience of Macau Hong Kong and of Taiwan in terms of achieving social justice in Chinese universities These questions are considered by a group of leading scholars from both inside and outside China Power, Surveillance, and Culture in YouTube™'s Digital Sphere Crick, Matthew, 2016-01-18 Over the last several years YouTube has become a public forum for creative informative and political endeavors around the globe As the website's influence and appeal continues to grow questions regarding the legal usage of material as well as potential governance issues regarding surveillance and political sway are becoming more relevant Power Surveillance and Culture in YouTube's

Digital Sphere examines the imaginative socioeconomic and innovative features of the video sharing community of YouTube and how these areas traverse the digital world Highlighting theoretical concepts and empirical research as well as in depth discussions on cultural studies participatory experience and media theory this publication will appeal to professionals practitioners researchers and students interested in the use of video sharing as a means of surveillance communication or personal promotion

Journey to Adulthood

Chin-Chun Yi,Ming-Chang Tsai,2023-01-06 Young people in East Asia are increasingly experiencing a prolonged transition to adulthood They are spending longer in school entering the labour market later and getting married later still This protracted young adulthood interacts with forces of both tradition and modernization as social and economic changes generate profound effects on the transition from school to work on family formation on personal relationships and on subjective well being

Journey to Adulthood explores the special characteristics of young adulthood in East Asia It uses Taiwan as illustrative example with comparative findings from its East Asian neighbours Japan Korea and Hong Kong It describes the particular growth context of a millennial generation and the challenges they face as they attempt to balance family formation personal development and entry into a market economy Edited by Chin Chun Yi and Ming Chang Tsai this collection helps us to

understand the structural configurations East Asian young adults collectively represent Taking a cross cultural and comparative perspective it enables meaningful policy suggestions on family dynamics educational strategy and health and well being across the globe Dr Chin Chun Yi and Dr Ming Chang Tsai both work within the Institute of Sociology Research Center for Humanities and Social Sciences Academia Sinica Taiwan
