**Smart Organizations in Industry 5.0** Sebastian Saniuk, Sandra Grabowska, Anna Adamik, 2024-12-31 The Fourth Industrial Revolution means the widespread digitization of economic processes using more economical and efficient production technologies Orientation towards productivity flexibility and low production costs results in a slow process of dehumanization of industry and focus only on implementing digital technologies of Industry 4.0 A natural consequence of this trend is the concern of workers governments and societies about new challenges and the role of humans in industry and the economy The hope is the emergence of a new industry concept proposed by the European Commission that expands the features of the existing Industry 4.0 concept to include human centric environmental and resilience aspects in smart organizations Industry 5.0 is an excellent alternative to the development of today's digital and dehumanized world and this book presents challenges and priority directions for smart organizations in an environment shaped by the pillars of Industry 5.0 This research volume discusses the development of technologies that support human oriented work systems sustainable production and system resilience in intelligent organizations It presents an educational challenge for universities and vocational schools in preparing employees for intelligent organizations and will be of interest to researchers academics policymakers and students in the fields of organizational studies knowledge management and the digital economy

**The Corporation of the Future** Stuart Orr, Paul Hunter, 2022-11-24 Although largely unseen the industrial revolution taking place before us is picking up steam dramatically Dissolution of traditional global trading partnerships the effect of COVID 19 on supply chains and the formation of new trading blocks such as China's Belt and Road initiatives are creating turmoil and rapid change in the international business domain Continual advances in technology health treatments political and societal change are underpinning these transformations It is unclear just how this revolution will unfold or what the role of the corporation will be in the long run

This book helps us navigate through these challenging times by identifying areas where opportunities will develop. Written by highly qualified experts from a diverse range of backgrounds, the book takes a novel backcast view to present more critical arguments. The book has been set in the not so distant future reflecting back on the changes that have led to a new type of corporation and the conditions that have led to it. Each chapter presents a complimentary view about the nature of and context for the 2040 Future Corporation. The back casting perspective will provide a very effective discipline for readers to analyse contemporary trends while presenting an integrated and balanced future perspective. *Sustainability* Rao Y.
