Sustainable Business Landscapes is a multidisciplinary exploration of AI's innovations, its challenges, and the sustainable pathways it must follow to serve humanity responsibly. As we transition from Industry 4.0 to the more human-centric vision of Industry 5.0, the integration of intelligent technologies with ethical, inclusive, and sustainable values becomes paramount. AI offers immense potential to enhance decision-making, automate complex processes, and personalize experiences. Yet its rapid adoption also raises pressing questions around accountability, privacy, equity, and governance.

Sustainable Innovation for Engineering Management (SIEM) Mounir El Khatib, Haitham M. Alzoubi, Yordanka Angelova, 2025-11-02. This book dives into topics like renewable energy adoption, how AI and IoT can create smarter systems, and the transition toward more sustainable infrastructures. The SIEM book offers an in-depth look at how sustainable innovation is transforming engineering management, providing readers with practical insights and strategies. It focuses on advanced technologies, data-driven approaches, and circular economy concepts, aiming to tackle the key challenges that today's engineers and managers are facing. With a focus on the circular economy, it explores how engineering leaders can integrate sustainability into their processes to achieve both efficiency and growth. Practical examples and real-world cases are also included, showing how companies around the world are balancing innovation with environmental goals. In an era where businesses are under pressure to reduce their environmental impact while staying competitive, this book gives actionable tools and strategies for achieving both. From big data applications in decision-making to AI-powered solutions, Sustainable Innovation for Engineering Management (SIEM) equips readers with the knowledge they need to succeed in this evolving field. Designed for professionals, academics, and students, this book creates a bridge between theory and real-world practices. Whether you are working to solve current industry problems or looking to inspire sustainable change within your organization, this book is a valuable resource for driving innovation and fostering sustainability together.

Journey of the Future Enterprise Jorge Calvo, 2020-10-29. To survive in the new competitive digital economy of artificial intelligence and the Internet of Things, companies will have to change their management models. The company of linear incremental growth is becoming obsolete. Moonshot leaders like Elon Musk or Jeff Bezos aspire to bringing about massive transformations. These visionaries seek radical solutions to big problems through enabling technologies that are easily scalable and yield increasing returns with decreasing marginal costs that in many cases approach zero. In his book Journey of the Future Enterprise, Jorge Calvo explains what the disruptive change of the Fourth Industrial Revolution consists of, what moonshot leadership is, and what exponential organizations (ExOs) are and how they have set out the conceptual framework, explains how to gear companies toward the new economy. In short, this resource-packed book is written for those who want to be part of this change, for those who are suffering the impact of this radical transformation, for those who feel lost as a result of the complexity and speed of the changes that are taking place, and for those who want to better understand the drivers of the Fourth Industrial Revolution.
