Getting Skills Right Training Supply for the Green and AI Transitions Equipping Workers with the Right Skills OECD,2024-12-11 Adult learning systems are being called upon to prepare workers for major labour market shifts including the green transition and the rise of artificial intelligence AI in the workplace While initial education is important upskilling and reskilling the existing workforce is essential to help individuals and businesses adapt and prepare for these transitions Policy makers face the challenge of ensuring training is both relevant and inclusive yet there is limited understanding of whether current training supply is sufficient to meet current and future skill needs Most research focuses on the demand for skills with little insight into the supply To fill this gap this report uses evidence from new OECD questionnaires and an analysis of training catalogues to evaluate whether current training supply aligns with the skills needed for the green and AI transitions It also provides insight into the accessibility and flexibility of training efforts to guide policy makers in their efforts to develop more effective inclusive training strategies

Transformative Approaches to Patient Literacy and Healthcare Innovation Garcia, Manuel B.,de Almeida, Rui Pedro Pereira,2024-03-22 The disconnect between technology and traditional practices poses a significant challenge Many healthcare professionals and individuals struggle to navigate the influx of emerging technologies hindering the full realization of their potential in revolutionizing health literacy and medical practice The lack of cohesive understanding and integration of technologies like mobile applications wearable devices artificial intelligence and telemedicine impedes the seamless delivery of healthcare services and obstructs individuals from actively managing their health Transformative Approaches to Patient Literacy and Healthcare Innovation offers a comprehensive solution to bridge the gap between healthcare and technology Delving into the dynamic fusion of these domains it unravels the transformative power of technology applications showcasing how they enhance health literacy and empower individuals to make informed decisions about their well being By providing insights into the integration of mobile health apps electronic health records extended reality artificial intelligence and more the book equips readers with the knowledge needed to navigate the evolving healthcare landscape with confidence

Embracing Chatbots in Higher Education Alexander M. Sidorkin,2024-03-28 This book explores the integration of AI powered chatbots such as ChatGPT into higher education for instructional and communication purposes The author emphasizes the responsibility of higher education institutions to equip students with advanced skills for writing with AI assistance and prepare them for an increasingly AI driven world Offering numerous practical tips the book demonstrates how universities can increase student success and stem the rising cost of higher education by employing AI tools The chapters discuss streamlining tasks such as grading providing feedback and handling administrative duties to show how educators can be enabled to focus on more meaningful aspects of their work The author also reflects on the philosophical and ethical considerations and potential pitfalls of relying on AI in higher education including concerns about academic integrity and the importance of human input in the learning process The

author offers a responsible and informed approach to incorporating the new powerful tools into the academic landscape This volume will be a key resource for higher education faculty and administrators seeking to navigate the complex intersection of AI and writing
