**Handbook of Essential Oils** Kemal Hüsnu Can Başer, Gerhard Buchbauer, 2010 *Handbook of Essential Oils* K. Husnu Can Baser, Gerhard Buchbauer, 2015-10-27 The second edition of Handbook of Essential Oils Science Technology and Applications provides a much needed compilation of information related to the development use and marketing of essential oils It focuses particularly on the chemistry pharmacology and biological activities of essential oils with contributions from a worldwide group of Essential Oils Anton C. deGroot, Erich Schmidt, 2021-04-11 Essential Oils Contact Allergy and Chemical Composition provides a full review of contact allergy to essential oils along with detailed analyses of the chemical composition of essential oils known to cause contact allergy In addition to literature data this book presents the results of nearly 6 400 previously unpublished sample analyses by far the largest set of essential oils analyses ever reported in a single source of scientific literature Covering 91 essential oils and two absolutes the book presents an alphabetical list of all 4 350 ingredients that have been identified in them a list of chemicals known to cause contact allergy and allergic contact dermatitis and tabular indications of the ingredients that can be found in each essential oil The book discusses contact allergy and allergic contact dermatitis for each of the oils and absolutes sometimes able to provide only one or two reports but drawing upon considerable amounts of literature in other cases such as with tea tree oil ylang ylang oil lavender oil rose oil turpentine oil jasmine absolute and sandalwood oil While limited information on the main components and their concentrations would be enough for most dermatologists this book gives

extensive coverage not only to improve levels of medical knowledge and quality of patient care but also for the benefit of professionals beyond clinical study and practice such as chemists in the perfume and cosmetics industries perfumers academic scientists working with essential oils and fragrances aromatherapists legislators and those involved in the production sale and acquisition of essential oils
