**General Expectations** The nature of ILM Qualifications The ILM Diploma in Leadership and Management is a vocational qualification As such it is different from many other exams you have taken in other schools and colleges While many examinations test your ability to memorize and reproduce what you were taught this diploma tests your ability to apply your learning in your workplace For this reason the emphasis is not on the right or wrong answer but more so on the relevance of your argument to your situation The Length of each assignment has been given below the unit purpose This will range between 800 and 2500 words depending on the number of questions given in the particular assignment Pass mark for each question or Assessment Criteria AC is 50% That means if a question has been allocated 10 marks then you need to score a minimum of 5 out of the 10 marks Scoring less than half the total mark allocation will mean the assignment will be returned to you for necessary improvement Evidence of workplace application All ILM assignments are work based meaning your response should be based on leadership and management practice in your work place Therefore the examiner of your work will be looking for evidence that you were able to apply your learning in your work place context Plagiarism is considered the worst crime one can commit in academic circles It involves using other people's ideas without acknowledging the source The punishment for plagiarism is a zero score for that paper and in extreme cases you may be discontinued from the study program

collar workers which is needed now more than ever This book will be relevant to scholars practitioners and policymakers in the fields of gender studies organizational behavior human resources and labor economics It will be particularly useful for those examining the impact of remote work the future of work organizational culture and the social and economic implications of shifting work practices The chapters in this book were originally published in *Culture and Organization* and are accompanied by an updated Introduction and a new Epilogue
