fast pace and promising innovations of today's most advanced learning technology *Managing Innovation Inside Universities* Randolph Hall, 2024-06-10 This book offers guidance on capturing the creative forces of the faculty staff and students at universities. Given their unique and central role in America and the world, it examines how university research, learning, and service can be integrated to address the needs of society as it is both enabled and changed by technology. In turn, the book assesses the challenges and opportunities for universities to be more successful and impactful through innovation, viewing universities as integrated systems. It demonstrates how change can occur both within the knowledge economy and because of innovations within it. In doing so, the book provides insights into how universities can prosper and lead in a world that is constantly changed by the innovations that universities and industry jointly create. The book serves as a guide for higher education policymakers, funders, donors, board members, stakeholders, and leaders: chairs, deans, provosts, presidents. Through its systematic vision for university innovation and service to society, it will also benefit researchers studying innovation in organizations, illustrating how systematic approaches arising from management science and operations research can be used toward positive change. Lastly, strategic partners in industry, government, and foundations seeking opportunities for partnerships and collaboration with universities will also find it useful.
