Library Space Planning and Design Alexander H. Cohen, 2025-03-19 Library Space Planning and Design discusses library planning methods to improve academic libraries learning commons undergraduate and graduate studies special collections and archives Often these projects required difficult challenges For example how to integrate student success centers or create new learning commons into a library The book shows how a library plan can be both sustainable and attractive to the users and how to integrate library functions furniture and equipment to enhance the learning environment Case studies from the author s interactions with library staff stakeholders and community leadership in the planning process are also included for additional clarity Takes a multidisciplinary approach to library services and space planning Includes case studies to act as unique learning opportunities and offers a customized methodology to support libraries of every kind Covers comprehensive planning methods that will help improve libraries

The Automation Advantage: Embrace the Future of Productivity and Improve Speed, Quality, and Customer Experience Through AI Bhaskar Ghosh, Rajendra Prasad, Gayathri Pallail, 2021-12-07 From the global automation leaders at Accenture the first ever comprehensive blueprint for how to use and scale AI powered intelligent automation in the enterprise to gain competitive advantage through faster speed to market improved product quality higher efficiency and an elevated customer experience Many companies were already implementing limited levels of automation when the pandemic hit But the need to rapidly change business processes and how organizations work resulted in the compression of a decade s worth of digital transformation into a matter of months Technology suddenly became the essential element for rapid organizational change and the creation of 360 degree value benefiting all stakeholders Businesses are faced with the imperative to embrace that change or risk being left behind In *The Automation Advantage* global enterprise technology and automation veterans Bhaskar Ghosh Rajendra Prasad and Gayathri Pallail give business leaders and managers the action plan they need to execute a strategic agenda that enables them to quickly and confidently scale their automation and AI initiatives This practical and highly accessible implementation guide answers leaders burning questions such as How do I identify and prioritize automation opportunities How do I assess my legacy systems and data issues How do I derive full value out of my technology investments and automation efforts How can I inspire my employees to embrace change and the new opportunities presented by automation *The Automation Advantage*

goes beyond optimizing process to using AI to transform almost any business activity in any industry to make it faster more streamlined cost efficient and customer focused vastly improving overall productivity and performance Featuring case studies of successful automation solutions this indispensable road map includes guiding principles for technology governance culture and leadership change It offers a human centric approach to AI and automation that leads to sustainable transformation and measurable business results

Market Engineering Henner Gimpel, Jan Krämer, Dirk Neumann, Jella Pfeiffer, Stefan Seifert, Timm Teubner, Daniel J. Veit, Anke Weidlich, 2021-04-26 This open access book provides a broad range of insights on market engineering and information management It covers topics like auctions stock markets electricity markets the sharing economy information and emotions in markets smart decision making in cities and other systems and methodological approaches to conceptual modeling and taxonomy development Overall this book is a source of inspiration for everybody working on the vision of advancing the science of engineering markets and managing information for contributing to a bright sustainable digital world Markets are powerful and extremely efficient mechanisms for coordinating individuals and organizations behavior in a complex networked economy Thus designing monitoring and regulating markets is an essential task of today's society This task does not only derive from a purely economic point of view Leveraging market forces can also help to tackle pressing social and environmental challenges Moreover markets process generate and reveal information This information is a production factor and a valuable economic asset In an increasingly digital world it is more essential than ever to understand the life cycle of information from its creation and distribution to its use Both markets and the flow of information should not arbitrarily emerge and develop based on individual profit driven actors Instead they should be engineered to serve best the whole society's goals This motivation drives the research fields of market engineering and information management With this book the editors and authors honor Professor Dr Christof Weinhardt for his enormous and ongoing contribution to market engineering and information management research and practice It was presented to him on the occasion of his sixtieth birthday in April 2021 Thank you very much Christof for so many years of cooperation support inspiration and friendship
