Muhammad Azeem Ashraf, Jinbo He, Samson Maekele Tsegay, 2025-02-20 Human behaviors are essential in understanding how individuals engage in medical science academic activities. Healthcare systems across the globe have witnessed a significant shift in recent years by integrating technology in innovating new methods and practices to improve educational practices. Therefore, pedagogical practices in medical sciences are expected to be consistent with the current developments so that medical students are prepared with the necessary skills when entering workplaces. In addition, the excessive use of technology has created severe concerns in the academic community that needs further investigation. Thus, it is crucial to know how teachers and students in medical sciences engage themselves in challenging behaviors, particularly in academic activities. This Research Topic aims to call for papers examining the influence of technology on human behavior in medical education. We invite researchers, practitioners, teachers, and students in all medical science disciplines to submit their research papers encompassing Quantitative studies, Qualitative studies, Empirical Case studies, Mixed Method studies, Experimental Research, and Review studies. This Research Topic welcomes articles about but not only limited to the following topics: 1. impact of technology on human behavior in medical professions teaching; 2. impact of technology on human behavior in medical professions training and learning; 3. effect of different social and psychological factors on healthy/unhealthy use of technology in medical sciences. *Learning, Teaching, and Assessment Methods for Contemporary Learners* K. G. Srinivasa, Muralidhar Kurni, Kuppala Saritha, 2022-10-29 This textbook tackles the matter of contemporary learners' needs and introduces modern learning, teaching, and assessment methods. It provides a deeper understanding of these methods so that the students and teachers can create teaching and learning opportunities for themselves and others. It explores the meaning of pedagogy, why it is essential, and how pedagogy has evolved to take 21st-century skills and learning into account. This textbook showcases various modern learning, teaching, and assessment methods for contemporary learners in an increasingly digital environment. Each chapter presents insights and case studies that show how such modern methods can be applied to classrooms and how they can support the existing curriculum. It shows students, educators, and researchers alike how to effectively make sense of and use modern learning, teaching, and assessment methods in everyday practice. **Resources in Education**, 1997 **Research and Innovation Forum 2024** Anna Visvizi, Orlando Troisi, Vincenzo Corvello, Mara Grimaldi, 2025-07-26 This book features research presented and discussed during the Research Innovation Forum Rii Forum 2024. As such, this book offers a unique insight into emerging topics, issues, and developments pertinent to the fields of technology, innovation, and education and their social impact. Papers included in this book apply inter- and multi-disciplinary approaches to query such issues as technology-enhanced teaching and learning, smart cities, information systems, cognitive computing, and social networking. What brings these threads of the discussion together is the question of how advances in computer science, which are otherwise largely incomprehensible to researchers from other fields, can be effectively translated and capitalized on so as to make them beneficial for society as a whole. In this context, Rii Forum and Rii Forum proceedings
