Presidential Elections 2012 Carina Förg, 2013-05-15 Seminar paper from the year 2013 in the subject Communications Multimedia Internet New Technologies grade 1 3 Institut für Interpretation und Sprachen München course Zeitgeschehen Englisch language English abstract In the last years social media platforms have experienced a boom that is hard to compare with anything similar before There is hardly anybody that does not have his own Facebook account and probably everybody has watched at least one video on YouTube in his life Those few people without Facebook are being watched skeptically usually accompanied by the question how can you live without it without feeling excluded This shows how important social media has become in our everyday lives and that we no longer can imagine living without being connected 24 7 The following paper will first give a general insight into the development of social media and social media platforms with a focus on Twitter and Facebook and then show their importance and influence on the presidential elections in the United States of America in 2012 At the end there will be a short forecast about how social media will probably develop within the next years

New Statesman , 2008 *About Imaginary Borders* Stefanie Dalvai, 2020-12-15 Diploma Thesis from the year 2020 in the subject English Language and Literature Studies Linguistics grade 1 University of Innsbruck language English abstract Othering is a language process which does not only occur in spoken language but also in written Nowadays such a negative portrayal and creation of the perfect other is often happening in a rather hidden and indirect manner This paper explores whether Donald J Trump indulged in the act of Othering in his Tweets and whether this happened in a direct or indirect way The findings lead to an understanding whether Othering is being accepted in politics or not What comes as a blessing has also its downsides as not only positive but also negative opinions are omnipresent on the internet This is due to the possibility to upload almost everything as not every website has a way to censor inappropriate content Furthermore having a filter for written or pictured hate crime does not prevent it from happening as it is not always straight forward and hateful messages can come in disguise An uncountable number of these more or less hidden hate crimes are a sort of Othering as people tend to put themselves in opposition to others to create a sense of solidarity with those who share sameness and to have some excuse to keep up power relationships With this it becomes clear that language itself in the case of this paper explicitly the

written one is a powerful tool to exert authority and domination on others especially when used by people in power like politicians Therefore the question this paper tries to answer is how written discourse in the Tweets of Trump creates the feeling of separation and dominance that underlies the act of Othering and whether this reflects a direct or indirect and with this more subtle and normalized use of power discourse In this thesis only those people Trump constantly portrays as dangerous foreigners intruders therefore not Americans are included in the analysis by looking at how he structures his discourse around them These include Mexicans and Muslims both to be found under the umbrella term of illegal immigrants
