

FIXED ASSET ACCOUNTING AND MANAGEMENT PROCEDURES MANUAL

SECTION 2

Asset Valuation

1 Purpose

The purpose of this section is to define procedures and organizational responsibilities for establishing total fixed asset acquisition costs.

All fixed assets and controlled items acquired by the City will be capitalized in accordance with the guidelines in this section.

2 Scope

Assigning proper values to fixed assets and controlled items is critical to maintaining accurate accounting records. Depending upon the classification of the asset (land, intangibles, buildings, improvements, equipment, vehicles, or infrastructure), the information required to establish and properly record asset values will come from various organizations or departments. Therefore, there will be shared responsibilities.

While other City organizations may provide supporting information, it remains the ultimate responsibility of each Department Fixed Asset Coordinator (DFAC) to ensure that the proper and complete valuation has been recorded for each asset in the department's Fixed Asset Management System (FAMS).

3 Guidelines

3.1 Designation of Property as a Fixed Asset

Fixed assets are items of property that

- are tangible in nature;
- have an economic useful life longer than 1 year;
- maintain their identities throughout their useful lives, either as separate entities or as identifiable components of larger conglomerations of property;
- are not repair parts or supply items; and
- have significant value.

With respect to the City, any fixed asset with an original cost **equal to or greater than \$5,000** is considered to have significant value and therefore will be capitalized.

Note: The significant value test is important because the City has many individual assets that are tangible and long-lived but are not of a value that would justify the time and expense of maintaining detailed accounting records; especially for low value assets.

Assets acquired with federal grant funds must be capitalized and controlled in accordance with the federal property management standards outlined in the Office of Management and
