in Sport Psychology Alison Pope-Rhodus, Sara Robinson, Sean Fitzpatrick, 2017-10-04 Written for graduate students and early professionals who are conducting applied sport psychology work for the first time Excelling in Sport Psychology is a guide for planning preparing and executing this work Each chapter addresses a critical component of the internship experience such as selecting a site for an internship preparing to begin the work evaluating the completed work and

marketing oneself throughout one's early career. The diverse experiences of the various authors provide a range of viewpoints for trainees to consider and apply to their growth as sport psychology or mental skills professionals. The text is written in a practical manner with suggestions and questions that will drive this personal and professional growth. Each chapter also includes a personal account from a current student or recent graduate about their experience in that area. This book will appeal to students in academic sport psychology programs seeking additional support and guidance about the internship process as well as post graduates who did not have an internship component to their program. Supervisors will benefit from reading the book as it highlights ways to work with trainees. Drawn from the experience of the applied Sport Psychology department at John F Kennedy University which has helped students set up internships, have successful experiences and attain jobs for over 25 years, this book can provide a model for training programs approaching the challenges of fieldwork.

Foresters, Borders, and Bark Beetles Eunice Blavascunas, 2020-09-29 In Europe's last primeval forest, at Poland's easternmost border with Belarus, the deep past of ancient oaks, woodland bison, and thousands of species of insects and fungi collides with authoritarian and communist histories. Foresters, biologists, environmentalists, and locals project the ancient Biaowie Forest as a series of competing icons in struggles over memory, land, and economy, which are also struggles about whether to log or preserve the woodland, whether and how to celebrate the mixed ethnic Polish-Belarusian peasant past, and whether to align this eastern outpost with ultraright Polish political parties neighboring Belarus or the European Union. Eunice Blavascunas provides an intimate

ethnographic account gathered in more than 20 years of research to untangle complex forest conflicts between protection and use She looks at which pasts are celebrated which fester and which are altered in the tumultuous decades following the collapse of communism *Foresters Borders and Bark Beetles* is a timely and fascinating work of cultural analysis and storytelling that textures its ethnographic reading of people with the agency of the forest itself and its bark beetle outbreaks which threaten to alter the very composition of the forest in the age of the Anthropocene **Healthy Communities** ,2010
