 last few years prompted by a wave of digital technologies that make it possible for organizations and societies to think at
 large scale This bigger mind human and machine capabilities working together has the potential to solve the great
 challenges of our time So why do smart technologies not automatically lead to smart results Gathering insights from diverse
 fields including philosophy computer science and biology Big Mind reveals how collective intelligence can guide corporations
 governments universities and societies to make the most of human brains and digital technologies Geoff Mulgan explores
 how collective intelligence has to be consciously organized and orchestrated in order to harness its powers He looks at
 recent experiments mobilizing millions of people to solve problems and at groundbreaking technology like Google Maps and
 Dove satellites He also considers why organizations full of smart people and machines can make foolish mistakes from
 investment banks losing billions to intelligence agencies misjudging geopolitical events and shows how to avoid them
 Highlighting differences between environments that stimulate intelligence and those that blunt it Mulgan shows how human
 and machine intelligence could solve challenges in business climate change democracy and public health But for that to
 happen we ll need radically new professions institutions and ways of thinking Informed by the latest work on data web
 platforms and artificial intelligence Big Mind shows how collective intelligence could help us survive and thrive
